Korsak Chairasmisak
Chairman of Executive Committee

The year 2017 was a triumphant year for CP ALL Public Company Limited (CPALL), marking it with great honor for being selected to be in the 2017 DJSI Emerging Markets for the first time in Food & Staples Retailing Category. CPALL is the sole Thai and Southeast Asian Company that has been awarded in the mentioned category. Furthermore, the Company has also been certified as a member of Thailand's Private Sector Collective Action Coalition Against Corruption. Such successful achievements are derived from the Company's effort in establishing its business foundation based on corporate social responsibility and the consideration given to the importance of all stakeholders throughout the supply chain that can create sustainable value for the business.

Despite the gradual recovery of Thai economy, business operation in 2017 has encountered a number of challenges, including the fast-growing technology that significantly played a vital role in everyday life or

the vibrant changes in consumers' needs in products or services. Hence, CP ALL Public Company Limited has kept up its pace, believing that changes occurred would lead to new business opportunities for the Company to grow. Thus, during the past years, the Company has enhanced its efficiency, attuned both short- and long-term strategies, developed new business models, searched for new markets, and applied new technology into our business operation. This included doing product ordering and purchasing via e-commerce or coinciding with cashless society by accepting payment anywhere and anytime for product and service through convenient payment methods such as credit cards or eWallet in order to address our customer lifestyle and meet all stakeholders' expectation, gearing the Company towards the sustainable growth.

Regarding the convenient store business, "7-Eleven" is stepping into its 30th year since the trademark has been granted from 7-Eleven Inc. in the United States

of America in 1998. Through all the past decades, the Company is committed to creating added-value to customers by offering differentiation, assortment, and convenience by continuously improve products and services at 7-Eleven stores. The development of products and services has been undertaken. For example, among ready-to-eat meals and ready-to-drink beverages, the Company has sourced new raw material and improved its cooking recipe to enhance taste of main dishes, appetizers, freshly brewed coffee in order to offer good experience for 7-Eleven's customers, which totaling over 11.8 million people per day. In addition, in 2017 the Company has achieved the target of expanding store network to 10,268 stores nationwide. In 2018, the Company's store rollout plan will remain intact with 700 new stores, in a progress to achieve the next target of having 13,000 stores in Thailand by 2021 under the vision "We serve convenience to all communities."

The Company is committed to reinforce the "Innovation Culture" to be embedded in the convenient store business with the creation of innovation for work processes, products and services in the stores through the President Award, the Shoaling Innovation Awards, the Innovation Days and the Process Excellence Award, organized every year by the Company. These projects aim to promote and support further development of innovation in the business, in accordance with the mission "Creating customer engagement through innovative products and services and enhancing good relations with communities and the society" and also align with Thailand's strategy. Driving the economy with innovation is a significant factor that will fortify Thailand's economy in the year to come.

For cash and carry business, "Makro", which managed by Siam Makro Public Company Limited, was able to retain its solid operating results in domestic market. At the end of 2017, Makro had a total of 123 stores nationwide, providing service to general and member

customers which include more than 3 million small and medium enterprises. In driving the country's business to grow fast and firmly, Makro focuses on developing a new store model, customer-centric products and services, and an IT system to serve with e-commerce business in the future. Makro, thus, strives to seek new investment opportunities in potential overseas markets to strengthen its future business growth. In 2017, Makro had marked a significant footprint as it opened its first store in Cambodia, making it the first overseas store. It was a great success gaining an overwhelming positive feedback from Cambodian customers.

In regard to the financial position, the Company focuses on enhancing stability and strengthening the financial position. In addition, we recognise the importance of financial risk management as well as managing finance costs to remain at a suitable level and controlling debt to equity ratio to be lower than the covenant. In 2017, the Company succeeded in issuing debentures as planned, reflecting the investors' confidence in the Company.

On behalf of the Board of Directors and the Executive Committee, we would like to express our gratitude to all of our customers, business partners, shareholders and patrons for always having trust in and giving support to the Company. Additionally, we would like to thank and express our admiration towards the management and all employees for their determination and effort with their full abilities in managing and performing professionally, contributing to the Company's achievement according to the goals jointly set. Lastly, the Company pledges its commitment of conducting business by taking into consideration the maximum benefits for all stakeholders and customers along with developing the economy, society, communities and the country, leading CP ALL Public Company Limited to be a quality organization which grow sustainably and harmoniously with Thai society in perpetuity.

Business Overview

CP ALL Public Company Limited (“the Company”) was established in 1988 by the Charoen Pokpham Group to operate the convenience store business in Thailand under “7-Eleven” trademark. The Company was granted a license to use the trademark from 7-Eleven, Inc., USA. In 1989, the first 7-Eleven store in Thailand was opened on Patpong Road. Furthermore, the Company operates other related businesses such as bill payment collection service (Counter Service Co., Ltd.), manufacturing and sale of convenience food and bakery products (CPRAM Co., Ltd), sale and maintenance of retail equipment (CP Retailink Co., Ltd.) payment for products and services through smart cards (Thai Smart Card Co., Ltd.), information technology services (Gosoft (Thailand) Co., Ltd.), logistics services (Dynamic Management Co., Ltd.), marketing services (MAM Heart Co., Ltd.), educational institution (Suksapiwat Co., Ltd.), and training and business seminar services (Panyatara Co., Ltd. and All Training Co., Ltd.), including catalog sales and e-commerce business (Twenty Four Shopping Co., Ltd.), and etc. In 2013, CPALL acquired Siam Makro Public Company Limited operating membership based Cash and Carry trade centers.

Policy and Company Direction

The Company has strategies to build sustainable growth and profits, to create value-added products and services for customers and society through quality and effective work processes, and to support a learning culture and development of employees through the corporate philosophy, vision and mission as follows:

Corporate Philosophy

Through happy employees, we desire to see smiles from customers.

Vision

We serve convenience to all communities.

Mission

To create customer engagement with innovative products and services and to enhance good relations with community and society.

With regards to 7-Eleven store expansion, the Company planned to further open approximately 700 new stores annually, with the milestone of 13,000 stores in 2021. With the strategy of being the convenience food store for Thai people, we emphasize on serving ready-to-eat food products with freshness, cleanliness and safety, as well as developing of new products with business partners to offer varieties of new products which are exclusively available in 7-Eleven stores. At the end of the year 2017, the Company had a total of 10,268 stores nationwide. ¹/1 The category comprises CPRAM's business in production and distribution of instant food and bakery, CS' bill payment services, CPR's business in distribution and repair services for retailing equipment, and revenue from other subsidiaries.

Convenience Store

Nature of Products and Services

The Company is the sole operator of 7-Eleven convenience stores in Thailand, being granted exclusive rights from 7-Eleven, Inc. to conduct business under the Area License Agreement.

Over the past decades, the Company has managed its convenience stores through its network scattered in different areas, namely, residential areas, offices, academic zones and gas stations, covering every province across the country. In 2017, the Company has a total of 10,268 stores.

Types of 7-Eleven Convenience Stores

7-Eleven convenience stores can be categorized into three types based on ownership as follows :

(Unit : stores)	2015	2016	2017	No. of new store openings in 2017
Corporate Stores	3,908	4,205	4,530	325
Store Business Partner Stores	4,257	4,645	5,017	372
Sub-Area License Stores	667	692	721	29
Total	8,832	9,542	10,268	726

1) Corporate Stores : The stores are wholly-owned and managed by the Company. The Company invests in retailing equipment, store decoration and inventory as well as manages the stores.

2) Store Business Partner (SBP) Stores : The Company offers an opportunity for any person including employees to operate their own 7-Eleven stores under a modern system. The Company will provide close support in operating the business, knowledge and understanding of management, principles of product assortment, as well as a financial system. Other supports are regular nationwide sales promotion and advertising plans. In addition, the Company steadily sends employees to advise new management techniques. Store business partner can either choose a new location or an existing store. In case a store business partner has his own location, the Company will help with the feasibility study without any charges. The term of the store business partner agreement and the benefits depend on the type of SBP.

3) Sub Area License Stores : The Company engages in sub-area license agreements with local entrepreneurs to operate 7-Eleven stores in the territory as specified. Currently, 4 sub-area license agreements operate their business in Phuket, Yala, Chiang Mai and Ubon Ratchathani. The Company will provide assistance and support under the agreed conditions.

Product Mix of 7-Eleven

The Company's major products are categorized into two groups. The distribution of daily-life consumer products comprises foods and beverage, accounting for approximately 70%, mainly including drinks, ready-to-eat foods and fruits, bakery products, desserts and All Café, etc., and non-food products excluding phone card, accounting for approximately 30%, mainly including personal care products and household products, etc.

The Company has studied and monitored population and social changes as well as customers' changing needs and expectations. Consumer behavior and lifestyle of each target group are vital to making plans on products and services, marketing, research and development, and selection of good-quality products and services to satisfy the demands of different target groups in each area or location, in keeping up with new trends and market changes.

At the same time, the Company has continually developed and improved its products and services to provide convenience and cater to daily activities of customers such as bill payment. The Company has continuously expanded its alliance partners to cover more vastly and more integrally. It offers payment service through more than 600 vendors, providing over 1,300 types of services. Furthermore, mobile application "Counter Service Pay" has been added as a new payment channel to better facilitate its customers. The service of storefront ATM machines covers most of total 7-Eleven stores nationwide. Moreover, the Company has increased payment options and convenience in product and service payment through Alipay, UnionPay, credit card and True money wallet, an e-wallet mobile application. It also provides a service for customers to drop off and receive products at stores.

Nature of Customers

The Company provides convenient services to customers through its store network, scattered in every community. The Company's customer groups are diversified, including people of every gender and age with different occupations who live and engage in daily activities near 7-Eleven stores. On average, a total of 11.8 million customers nationwide per day purchased products and services from 7-Eleven stores in 2017.

Customers who shop at 7-Eleven stores are varied depending on age group and store location and, thus, have different demands for products and services. Consequently, the Company has attempted to assort products appropriate for customer groups in each store location. Plans are also made to prepare sufficient products and services for different time periods when customers come in to shop. Each store has different peak sales periods - daytime, nighttime, working days, weekends, or even holidays or important events in each area.

Strength and Management Excellence

For over 30 years, 7-Eleven stores have become a part of Thai consumers' life. It provides customers with convenience in purchasing through its store network of 10,268 stores that scatter in every community. The Company has continuously expanded its store network to best cover and reach the customers' demands. This causes the Company to have the most market shares in retail business of convenience stores in the type of chain store. In 2017, the Company has expanded another 726 stores. The total stores in Bangkok and its vicinities are accounting for 44% and those in provincial areas are accounting for 56%.

New stores have been increasingly expanded in strategic locations to cover more target groups such as stores in condominiums, offices, universities and high-income customer potential areas. Additionally, the Company has prepared for its readiness to serve new customer groups which are tended to increase in the future, for instance, elderly people, tourists, expatriates working in Thailand, customers residing along country borders, etc. The Company has also developed and renovated existing stores to keep abreast of modernity while maintained the quality of its new store growth.

Another strength of the Company is the number of customers. More than 11.8 million customers shop at 7-Eleven stores per day. The Company focuses on studying and understanding customer insight for making plans and modifying strategies to select and develop potential, appropriate products and services which can respond to changes in a timely manner and in line with customer behavior of each group and in each location. In addition, the importance of developing and elevating the quality of service mind and signature service has been highlighted. The service-mind culture has been embedded and enhanced among employees at all levels, under the concept which believes that excellent service provision starts from happy employees who enjoy working and gain positive service mindset. This will result in a delivery of impressive experience, differentiation and long-term engagement with customers by warm service and friendliness of our employees.

Furthermore, the business alliance network, within the Charoen Pokphand Group which covers diverse businesses in many countries and global 7-Eleven network, enhances the capability and efficiency in managing its stores by sharing knowledge and best practices among each other, to foster the business based on customers' demands and deliver good-quality products and services at reasonable price, which creates differences and increases sales opportunity.

Additionally, the Company has its own large distribution centers throughout the country as well as modern, efficient management system, ensuring store branches to receive goods completely in a timely manner and prevent from losing sales opportunity. This enables the Company to maintain the quality of its goods until they reach customers' hands. Hereby, the Company is a retailer owning the largest distribution center area in the country.

Market and Competition of Convenience Store Business

The year 2017 was a challenge for the business sector. Despite the sign of continued economic growth based on the recovery of export and tourism, consumers spend conservatively due to the increase of household income which was slower than that of household expense, higher cost of living, continued liabilities and low agricultural products' price. These factors influenced the government to kick off the tax deduction measure to stimulate the consumption or the "Shop Chuay Chart" economic stimulus campaign during 11 November to 3 December 2017 to inject more cash into the economic system.

Nonetheless, although several factors affected the retail business in 2017, retailers were managed to adjust themselves and improve new products and services at all time to address dynamic changes of customers' demands and to suit the state of economic slowdown. Thai Retailers Association estimated that Thailand's overall retail business increased by 3.4% and overall retail market amounted to Baht 3.5 trillion in 2017.

At the end of the year 2017, the Company had a total of 15,883 convenience stores in the chain store format, increasing by 1,036 stores. Most of the increase came from 7-Eleven store expansion while the other operators mostly concentrate on existing store renovation. The Company's market share in the chain store business was accounted approximately for 65%. Other retailers, namely, Tesco Lotus Express and Family Mart, were accounted for 10% and 8%, respectively.

Numbers of Convenience Stores, both Stand-alone and in Gas Stations

(Unit : stores)	2015	2016	2017
Stand-alone convenience stores	11,721	12,410	13,226
• 7-Eleven stores	7,597	8,210	8,814
• Others	4,124	4,210	4,412
Convenience Stores in gas stations	2,294	2,437	2,657
• 7-Eleven stores	1,235	1,332	1,454

In 2018, the economy is tended to increase a little by 4.1% in accordance with the trend of global economic recovery, which supports the improvement of export and tourism. In addition, it is expected that the tax stimulus measures will reinforce tourism, seminar and training in secondary touristic provinces. Concerning the governmental

sector, the investment especially in the infrastructure construction and the clear intent of political election will establish confidence among business sector and stimulate relevant investment in the business sector. Furthermore, the minimum wage increase will stimulate the purchasing power and confidence in purchasing to be at higher level.

Thai Retailers Association forecasted that overall retail market value in 2018 will increase by 3.6-3.8% and worth approximately Baht 3.6 trillion. Nonetheless, the capability to continually maintain the expansion of retail business growth in 2018 depends on the ability to respond and self-adjust to changes, especially towards the digital and cashless society, in which payment will be made through digital platform. Consumers' behavior and decision will change in the need of convenience, speed, information accessibility, ability to purchase and pay for products and services anywhere, anytime and any equipment at their convenience. E-commerce market and online market have started to play a key role and been integrated to existing offline stores, as a faster and more convenient channel of purchasing and payment, to deliver good and impressive experience to customers.

Strategy and Direction for Business Operation

The year 2017 was a challenge for the Company in many perspectives due to dynamic and violent changes in retail business. Main factor was the technology advancement, which played an important role in providing fast and convenient accessibility to products information, purchasing and payment channel, and new, diverse business platforms. To keep up with the possible changes, leading to business opportunities, the Company has defined short-term and long-term strategies to cover, align with and respond to current and future consumers' way of living and expectation. This is expected to cope with more violent competition, keep and increase customer base in the existing market, and expand to reach more new target groups. At the same time, the Company shall consistently develop and elevate the level of operation and management to gain efficiency, including cost management and improvement for fast and good-quality working procedures based on a customer-centric scheme, as well as conduct its business considering all groups of stakeholders in order to grow sustainably in the future to come.

Strategy to Respond to Consumers' Change, Leading Towards the Sustainable Growth

1. Strategy to expand and develop stores, covering and addressing the customers' demands in each location

The Company focuses on expanding stores for more coverage to increasingly provide customers with convenience. Both existing store renovation and new store expansion are in the format that can efficiently facilitate its customers in accordance with each group's behavior and lifestyle. The Company has targeted to open 700 new stores per year, to achieve 13,000 stores by 2021.

Efficient store expansion on strategic locations helps maintain the market share firmly. The main goal of store network expansion shall align with the expansion of urban communities, both in primary and secondary cities in accordance with the expansion of infrastructure, touristic places, and other strategic locations through business partnering with alliances, including real estate developers, hospitals and academic institutes, for instance, to open new stores in condominium, offices, universities and high-income residential areas.

To address the customer behavior of personal car commuters, urbanization and service area expansion to reach more customers, more stand-alone stores are expanded with the provision of parking lots. In 2017, the Company had a total of over 2,000 stand-alone stores, with an increase in store size for more sales area and product variety, to gain more business opportunities.

Moreover, the Company highlights the importance on new innovations by integrating the technology into its stores to create fast and convenient purchasing experience, to address young generation's lifestyle, and to keep abreast of the digital era. Model high-technology stores equipped with digital advancement have been developed, with the integration of innovations, technology, facilities, digital menu board, self-checkout machines, 24 shopping kiosks, together with environment-friendly equipment. An example of the model store is the Panyapiwat Institute of Management (PIM) store, which is Store No. 10,001.

2. Product strategy, especially food and beverage to gear towards fully 24-hour ready-to-eat convenient stores

One of the Company's missions is to help make the customers' life easier and more convenient. It, thus, gives an importance on studying and understanding customer insight to select and develop products in line with the market direction and in keeping up with social changes as well as each customer group's behavior in each location, to provide customers with diverse products and services. This helps address and solve the customers' life more completely. In the meantime, to enable 7-Eleven to become customers' top-of the-mind food and beverage destination, the Company has developed food and drinks to be outstanding from those of competitors and increase worthiness, with a focus on improving good taste, benefits and nutrient value to foster good health and happiness among Thai people. Besides, more variety of menu has been added especially to healthy food and drinks, such as ready-to-eat vegetables, fruits, veggie and fruit juice and low-calorie food, to satisfy health-conscious consumers and Thai aging society.

In 2017, the Company expanded 7-Eleven stores distributing chilled meal to address more customers, covering over 10,000 stores. This can serve customers' demands for as many as 7 meals a day. Moreover, temperature-controlled distribution centers were expanded to different regions to align and cover more sales area for the ability to deliver quality products fast to the hands of customers. The Company also selected ready-to-eat main dish, snacks, desserts, Thai desserts and fruits to offer a wide variety and add more options to customers. Regarding coffee and fresh bakery, the Company increased the number of freshly brewed coffee corner "All Café" and "Kudson" to feature in more than 4,700 stores nationwide. Concerning freshly prepared meal, food places are located in more than 200 stores in Bangkok and provincial area. Furthermore, more menu was introduced to suit the consumers' demands. Halal food were distributed in over 450 stores, with the target to amplify the formats and numbers of distributing stores in 2018 to serve the growing number of Muslim customers and travelers.

Not only has the Company focused on offering product variety, but controlling food safety standards has also been put on top priority. The Company has developed the efficiency increase system in supply chain system and the traceability, to elevate the product quality in every process ranging from the production, transportation and store management, ensuring that customers receive fresh, quality products in every meal through all 7 days.

Apart from an emphasis on food and drink products, to address the customer behavior based on health and beauty concern as well as the increasing number of elderly people in Thai society, the Company focuses on the selection of a wide variety of health and beauty products, including herbal products. All Beauty Corner was increased to cover over 5,000 stores. First-aid drug and health product corner "eXta" was also added in more than 6,800 7-Eleven stores nationwide, with an aim to distribute quality drug with easy access for everyone and be a reliable drugstore in the community, to foster good health among Thai people throughout the country.

3. Digital strategy to enhance operational efficiency and create good experience for customers

The Company is aware of and monitors the fast-pacing change of technology which enters into consumers' daily life and impacts on their decision unceasingly. This is integral to plan making for self-adjustment. Technology is incorporated to bring about new business opportunities. It also used as a tool to reach and understand customers' needs, an additional channel for customers' convenience, and a support to get the work done faster and more convenient.

Studying and understanding the customer insight were consistently conducted through direct and indirect channels and approaches, including research conduct, listening to the voice of customers through different channels especially on the internet and social media, and customer behavior observation. The information obtained is brought to conduct the in-depth data analysis, utilizing suitable technology to achieve fast and accurate output, leading to business design and modification to address the digital society. Purchasing channel, which was previously available through physical stores, is modified to provide customers with more options to order and purchase goods through various channels, ranging from e-commerce, catalogue to phone, all of which are operated by 24 Shopping Company Limited and utilizing its store network covering over 10,000 branches as drop-off point where customers can pick up their ordered products at the shop for 7 days 24 hours. This creates new experience among customers. The Company has targeted to develop information technology system and procedure to manage diverse channels by incorporating into the omni channel. This creates more choices and convenience for customers and helps them to easily access the Company's products and services anywhere, anytime, through the fully integrated offline and online channels (O2O).

Besides, the Company has increased the communication channels and conducted digital marketing activities and promotion through mobile application, to enhance customers' engagement. Digital communication channels were also added to provide information and receive customers' opinions through Facebook "7-Eleven Thailand", Line application and Youtube of "7-ElevenThailand".

In regard to financial services, provision of more options for bill payment has always been highlighted. Especially in the present time beginning to enter the digital and cashless society, the Company has developed the form of payment inside 7-Eleven stores, utilizing barcode through mobile payment by Alipay Wallet and True Money Wallet. At the same time, the Company has added the payment channel via credit cards, to facilitate and motivate customers having higher expenditure per bill as well as increased tourists each year, especially Chinese tourists.

4. Logistics strategy to improve the efficiency in product delivering and prepare for the expansion into the digital era

To ensure that stores receive its goods completely, timely, and without losing any sales opportunities as well as maintain its product quality until reaching the hands of customers, the Company emphasizes the significance of expanding distribution centers appropriately in numbers and locations, in order to be capable of distributing a wider variety of products in terms of types, service providing locations, diverse channels, both online and omni

channels, and product delivery, either to stores or customers' home. In the meantime, operational efficiency and effectiveness of relevant parties are also enhanced throughout the supply chain by modern and more efficient management system. Automation technology system is brought to help improve cost management, reduce losses and notify every movement, and monitor the operational processes to deliver the products through transport routes correctly and precisely.

5. Strategy in sustainability by operating business based on good governance and being a good corporate citizen

The Company recognizes that, for being a quality, sustainably growing corporate, a fundamental factor is to establish confidence and trust among the society, community and stakeholders by operating business with a focus on sustainable development in all dimensions, ranging from economic, social and environmental aspects, on a basis of governance principles, transparency, anti-corruption. The Company, thus, embeds the awareness among all employees to do their job with honesty, ethics, and concerns on the community, society and environment, by creating shared value (CSV) throughout the operational processes.

In 2017, the Company was certified by the Thailand's Private Sector Collective Action Coalition Against Corruption (CAC) as well as accredited as a leading company in the Dow Jones Sustainability Indices (DJSI), Emerging Markets, Industrial Sector, Food & Staples Retailing 2017. The Company is the sole company in Thailand and Asia being qualified in such industry.

In addition to the mentioned principal strategies, the Company remains emphasizing the establishment of fundamental basis and developing supportive factors promptly to foster firm and sustainable business growth as follows :

1. Strategy to establish business alliances for collaboration and business advancement

As business alliances throughout the supply chain are vital to business strengthening, the Company places high importance on building a network of alliance and collaboration at different levels, including alliance with the Charoen Pokphand Group, owing a diverse range of business, and global 7-Eleven network, to exchange their know-how and best practices, leading to the increase in capability to satisfy customers' demands and the selection and development of different, varied products and services. The Company has also developed the capability of business partners, including producers, store business partners, logistic companies and minor entrepreneurs through knowledge sharing, consultancy and training to drive their business in keeping up with the Company's growth. Additionally, the Company has stipulated the policy to enhance and promote the products from small and medium-sized enterprises (SMEs) producing quality, standardized products which gain popularity, such as processed fruits, drinks, bakery and beauty products, for instance. The Company will be a distribution channel for those enterprises, of agricultural products and processed agricultural products in particular, with an objective to help increase the value of agricultural products and better the farmers' standard of living.

2. Strategy to instruct people for the preparedness concerning high potential personnel and organizational engagement as readiness for the business expansion

Bearing in mind that personnel are the heart of the business and sustainable growth, the Company has highlighted on people development based on the business operation under the corporate philosophy believing that “We wish smiles from customers, brought by happy team.” Thus, the Company is committed to develop the capability of the employees to be good people equipped with great ability, create teamwork environment, and learn to understand the differences of people in each generation, so that employees at all levels can work together harmoniously. Furthermore, employee engagement survey is conducted yearly to listen to customers’ opinions and suggestions. Information obtained from such survey is brought to develop and improve working procedures, welfares, career path planning for employees at each level. This sustainably enhances employees’ love, engagement, and pride in the Company. It is then reflected through further delivering the value and services with happiness to customers.

To build and develop its personnel to gain capabilities and be able to respond to the country’s retail business expansion, the Company has initiated and consistently reinforced the education and development for qualified personnel through dual vocational system or the dual system of learning and training, in conjunction with the Office of the Vocational Education, through Panyapiwat Technological College, offering the education at the level of vocational diploma, and Panyapiwat Institute of Management, offering the education at the bachelor, master and doctorate degrees, in both Thai and international courses. This can be cited that the Company takes an important part in developing the country’s education system, particularly the courses in retail business management to be up-to-date and well address changes of consumers and modern businesses.

Due to fast-pacing changes in today’s world, the Company recognizes that skills necessary for living and working in the future must be prepared and formed since one’s childhood. In 2017, Pinyawat Institute of Management Demonstration School (Satiit PIM) was opened for the education of secondary school (M.1-M.6). The teaching method is based on a student-centric approach, learning by true experience, and knowledge linkage for daily life applies. English-led instructions in three major subjects are mathematics, science and English, to groom Thai children as the world’s citizen in the 21st century.

3. Preparing infrastructure and information technology system as readiness for business expansion

From the target to open approximately new 700 stores per year, to achieve 13,000 stores by 2021, it is crucial to prepare for readiness in terms of infrastructure, store standards to reduce construction period and costs, asset management system, and store and equipment maintenance for being always new and ready to use. Moreover, the information technology infrastructure must also be prepared to keep up with business changes over time, in terms of the system and skillful personnel, to ensure that working processes can run smoothly, fast, correctly and efficiently. The Company must also develop and improve working processes to be prepared for future business expansion.

Amidst the technological advances in today’s business world, policy on information technology is fundamental to the Company’s business operation, to control, audit and oversee the working processes based on information technology system. This ensures transparency and traceability in every step of the work.

4. Development of innovation excellence for being a quality organization which grows sustainably

Among dynamic changes nowadays, innovation is the heart of the business. It creates differentiation and business advancement to strive firmly and sustainably. The Company, therefore, enhances and drives the “Culture of Innovation” within the organization. The Company places high importance on learning and developing new creative ideas unstoppably, to fabricate valuable innovations which enhance maximum efficiency and effectiveness of the business operation. The Company focuses on internal development of new innovations, by reinforcing all employees to participate in creating innovative procedures, products and business concepts. Such knowledge is disseminated through contests of the Innovation Days and the Process Excellence Award, both of which are held yearly. Besides, the Company also reinforces external innovations. The collaboration between CPALL and 11 alliances from government and business sectors, including researchers and the Incubation Center on Business Innovation of several universities throughout Thailand, is formed to provide Thai business partners and SMEs with opportunities and channels to showcase their innovative, quality products through 7 Innovation Awards in the “Thailand Synergy for Thai SMEs”. This is a means by which each company converts its own knowledge to create added value for the benefit of the economy, the society and the nation.

Delivery of Products and Services

The Company strives to continuously develop its value chain to deliver the best to customers. In terms of logistics development, in 2017 the Company has a total of 7 regional distribution centers for consumer products, 9 regional distribution centers for temperature-controlled products and 2 regional distribution centers for frozen products, making it the retailer with distribution centers covering the largest area in Thailand. The Company continues to give importance to increasing the number of distribution centers to support store expansion. The Company focuses on cost management and improvement of product delivery using automated technology to deliver products correctly and accurately to ensure product quality from manufacturers until reaching consumers.

Risk Factors

Risk from Distribution Center and Logistic Error or Problem

Most of the products sold in 10,268 7-Eleven stores nationwide are delivered via the Company's distribution centers, with more than 2,000 manufacturers and suppliers delivering their products to the distribution centers according to the given delivery date. Therefore, the distribution centers play a vital role in 7-Eleven's business in distributing products to stores across the country in a correct, complete and timely manner. Errors or problems at the distribution center and disruption of transport route due to floods, fire, communication system and information technology failure, severe accidents, or any force majeure from the supply chain system from the manufacturer to distribution centers and then delivery at the stores, will have an adverse impact on the sales of all 7-Eleven stores and business opportunity, and may negatively affect the Company's operating performance.

The Company's Risk Management

The Company has continuously reviewed its annual strategic plan in order to support the growth of new store openings to potential areas nationwide, together with an increase in same store sales growth. For the distribution centers, the Company has continued to evaluate the adequacy of the capacity in line with the growing sales turnover and new store openings, including the crisis management in regard of the distribution center where one interrupted. In case additional distribution center needed, the key consideration is a prime location which is in the safety area and be able to operate at the most efficiency of delivery to store. Distribution centers should be distributed along the metropolitan areas and provincial areas across the country in order to diversify operating risk and to support store expansion in the future.

The Company has prepared and practiced the Incident Action Plan and conducted drill regularly planned to be ready to deal with various crises through 24 hours such as flooding, riots, fire, and blackouts. There is also a Crisis Assessment Team (CAT) which is responsible for providing warnings about the crisis to various departments in the risk areas so that they can prepare to deal with the crisis in a timely and appropriate manner. Business Continuity Management (BCM) includes using nearby distribution centers to deliver products, transporting products using large trucks, using alternative routes, finding alternative products, and establishing temporary distribution centers.

The Company has also collaborated with key suppliers to develop a Business Continuity Plan (BCP) to prepare products and deliver them during crisis to minimize the negative impact on the sales revenue. In addition, the Company has appropriately bought insurance to compensate for loss and to alleviate the cost burden that may occur in the future, covering distribution centers, stores and subsidiary companies.

By doing so, the Company believes that the distribution centers are sufficient to support store expansion plans in the future. On the other hand, the distribution centers can function as a secondary distribution network with each other across the country. In case if any place where a disruption or major transportation routes were not passable. The network can back up to replace at the most effectiveness.

Risk from Information Technology Error or Problem

The Company has invested in important information technology systems, comparable to the brain of the business, for ordering and communicating to all units in the supply chain to effectively deliver excellent services and create smiles for more than 11.8 million people per day. These systems include the store point of sale system, Call Center, ordering and delivery system, and etc. Therefore, an error or problem in the information technology systems will affect the business operations and ability to serve customers at 7-Eleven stores and may negatively affect the Company's operating performance.

The Company's Risk Management

The Company recognizes the importance of information technology in both the store and office level, including the supply chain systems being operate effectively with the continuity of business operations. The Company also reviewed its annual strategic plan in order to manage the software system in accordance with the requirements of the business process of software engineering with reference to international standards which aimed at developing technology to improve processes and assets in the long-term. Business development unit can collaborate with global partners to update technology system to accommodate the changing trend of the market.

In regard to managing of the hardware, the Company values the importance of the 2 IT centers located in different areas – the Silom IT Center in Bangkok and Chaengwattana IT Center in Nonthaburi Province. These 2 IT centers support each other in case of any problem with one of the centers and ensure that in case of the worst unexpected situation happening to one of the IT centers, the IT system will be able to work as normal within an hour.

The Company has a full range of security system for its 2 IT centers, beginning with the design of their safety in every section under the proper environment. A backup generator systems, UPS, smoke and fire detection systems, intrusion detection systems and inhibit mobility, backup air conditioning, and power feed system pairs each, including system maintenance have been also installed. In addition, the Company set up an expert team to stabilize and secure IT system throughout 7days/ 24 hours to be ready for its operation continually. In addition, the Company regularly provides training and drills to related BCM team, which the training will be given scenarios that could cause crisis to IT center on a variety of different situations to ensure that the delegated team is comprehend and able to follow all the business continuity management (BCM) efficiently and timely. Furthermore, apart from regular check up by the internal audit team, an external audit company tests on the IT system annually for the highest assurance of the Company's information technology system.

Risks from Laws and Government Policies

The Company manages the convenience store business and various supporting businesses under the CP All Group in Thailand. Its management is transparent and has always strictly complied with the government laws and policies such as the Consumer Protection Act, Price Control Act, Food and Drug Act, labor laws, and other by-laws of each locality. The government or government agencies may change laws, rules and regulations to benefit competitors and stakeholders more. This may materially affect the Company's strategy, goals, and business plan and the Company's performance may not achieve the set goals.

The Company's Risk Management

The Company has conducted business with taking into account the interests of all stakeholders. In the management level, the Sustainable Development Committee and the Corporate Governance Sub-committee are responsible for monitoring that the Company operates its business with all stakeholders honestly and transparently in line with the principles of good corporate governance. Therefore, if there is any change in the laws relating to the business, the Company will be able to promptly adjust to the situation and control the impact to be at acceptable levels according to the organization's risk management.

In addition, the Company has established Legal and Compliance unit to oversee the implementation of laws and regulations to which the Company and the working teams, as well as the working units that are specifically established

to oversee various stakeholders. These include the Product Liability Committee to look after the benefits of consumers and store business partners. The Company also has the Safety, Health and Environment Committee to take care of environments which may impact on society, communities around the stores and office, not to mention, the Call Center who provides advice and assistance regarding the Company's activities at timely manner, 24 hours.

Emerging Risks

Risk from Disruptive Digital Technology

Digital Technology has had an ever-increasing role in our daily life and activities, as well as in the conduct of business activities and in the fast-changing consumer needs. This is especially so in the era of increased business competition that is driven by "innovation" after the Government has announced and initiated its "Thailand 4.0" strategy; such as: making use of digital technology applications in providing our logistics services and in the on-line distribution of our goods and services. Thus, in the long-term, such changes will result in various risks that may affect our business model and the conduct of our business activities together with our existing distribution channels; so that the 7-Eleven stores may lose their unique competitiveness, as well as there may be opportunities to establish new businesses that will create added economic value for our organization.

The Company's Associated Risk Management Measures

The Company regularly reviews our annual strategies, in order to support the planned business growth and also to define various strategies in preparing the Company to be ready for the imminent digital transformation so as to increase customer convenience in accessing and purchasing the required products and services offered by the Company beyond merely buying goods at our stores. This is to be achieved by developing the retailing processes and procedures into an 'omni retail channels platform; and by coordinating the various established channels into a uniform customer experience, so that our customers will be able to easily access and purchase all goods and services offered via any selected retail channel and at any time as required. This is also achieved through combining retailing channels that are both offline (through the stores outlets) together with those new online commercial channels (through new electronic retailing channels), that the Company has developed and operate through our Subsidiary, Twenty-Four Shopping Co., Ltd, so as to facilitate and enhance our customer services. This Subsidiary also operates online Digital Marketing activities in marketing various products and in promoting these products and services through a proprietary Application available on smartphones, that is designed to establish enhanced customer relationships as well as to disseminate information and news and also to receive feedback and comments from customers via the "7-Eleven Thailand" Facebook and Line platforms. Furthermore, the Company has also developed a payment method for goods purchased in the 7-Eleven stores via the Mobile Payment platforms of Alipay Wallet and TrueMoney Wallet. Additionally, the Company has increased other payment methods in using credit cards, so as to enhance customer convenience and to increase purchases by customers who have high purchase values as well as for the Chinese tourists.

The Company has also tested its delivery services for small packages together with for those goods ordered online on leading retailing websites via our nationwide stores network; whereby customers can take delivery on a 24-hr basis under our "At All" services, managed by Dynamic Management Co. Ltd.

Our Digital Presence Risk

From a 2017 survey in 238 countries worldwide, it was found that there are 3,773 million internet users worldwide equal to 50% of the total world population; and that there are 4,917 million smartphone users-equal to 66% of the total world population, which has resulted in 2,549 million people equal to 34% of the total number of internet users worldwide using various social media platforms on their smartphones. Additionally, the result of this global survey indicated that Thais ranked 7th worldwide in the use of social media, which equals to 67% of the total population, and that this social media usage totals an average of 2.48 hours per day ranking 12th worldwide. As such, the future fully-connected world will unavoidably result in our digital life to be connected to our actual daily life, whereby 80% of the total population will have a digital presence in the internet world. This has resulted in the Company having to think about how to position itself in the digital world with regards to researching and sharing information, to expressing opinions, to researching for and being a source of information, or even with regards to establishing and maintaining digital relationships as in the real world. If the Company is not able to manage its presence and identity within the digital world in an appropriate and effective manner, it may lose its competitiveness; while this may also be an opportunity to establishing new business activities that will create added economic value for the organization.

The Company's Associated Risk Management Measures

The Company places importance on good corporate governance, whereby it has put in place various measures to ensure strict compliance to the established policies on good corporate governance, business ethics and required good business conducts, as well as on anti-corruption together with various associated operating guidelines. Additionally, the Company is committed to promoting and developing the Company to be an effective organization that upholds its commitment to conducting its businesses in a fully transparent manner together with positive moral values, and in being fully responsible towards and accountable to all Stakeholders. Furthermore, the Company has established a Corporate image and communications Unit, responsible for communicating and following-up on various information or news relating to the Company's corporate image within the digital world, in order to be prepared to clarify and disseminate to any involved parties, any news or information that is fully accurate and complete as well as in a timely manner.

Risk from AI (Artificial Intelligence) and Decision Making

Currently technology relating to AI and decision making has advanced in a fast-paced manner; such as, in 2017 Google's Alpha Go AI is able to beat a world GO champion from China together with many other world-class GO players. In the future, if an AI is not appointed to the Corporate Board of Directors in helping the Board to arrive at a decision based on the available information on hand or to analyze what has happened in the past in an easy and fast manner, it may result in a loss of competitiveness, together with the creation of opportunities to establish new business activities that will build added economic value for the organization

The Company's Associated Risk Management Measures

The Company has regularly reviewed our annual strategic plans, whereby various factors relating to important technological changes, innovation and disruptive technology on a global basis are part of the assumptions used in defining both our updated short-term and long-term strategies. Additionally, the Company has established the Science Technology and Innovation Development Office-STIDO, in order to create close cooperation between various internal and external operating units in the development of our proprietary technology, which corresponds to the established strategies and that will lead to the ongoing sustainability of the organization.

Financial Risk

As at 31 December 2017, the Company had fixed interest rate Thai Baht bonds amount of Baht 155,625 million or equal to 93 percent of the total amount of interest bearing debts. Net debt to equity of the Company continuously declined to 1.70 times in 2017, whereas net debt to equity as determined in the bond covenants was at 1.44 times, lower than the level stipulated in the covenant for year 2017.

The Company's foreign exchange risk rose from normal business operations i.e. the purchase and sale of goods in foreign currencies which are relatively low. The Company primarily utilises forward exchange contracts with maturities of less than one year to hedge such financial assets and liabilities denominated in foreign currencies. As at 31 December 2017, as per the consolidated financial statements, the Company's loans denominated in foreign currencies was Baht 363 million.

The Company's Risk Management

Risk management is integral to the whole business. The Company has a system of controls in place to create an acceptable balance between the cost of risks occurring and the cost of managing the risks. The management continually monitors the Company's risk management process to ensure that an appropriate balance between risk and control is achieved.

At present, the Company's transaction associated with foreign exchange is relatively low, then, such risk shall not impact to the Company's business operation significantly (see notes 38 Financial instruments).

Furthermore, the Company's had fixed interest rate Thai Baht debentures amount of Baht 155,625 million, which the Company plans to continuously reduce leverage ratio by using internal cash flow from operation to repay loans; thus, such ratio tends to be lower. In addition, debt covenants of CPALL bonds are stipulated as follows:

as at December 31, 2015, net debt to equity not more than	5:1
as at December 31, 2016, net debt to equity not more than	3.5 : 1
as at December 31, 2017, net debt to equity not more than	2.5 : 1
as at December 31, 2018 and onwards, net debt to equity not more than	2:1

In addition, the Company also has issued perpetual debentures of Baht 20,000 million in order to cushion net debt to equity ratios.

Risk from the Record of Goodwill and Intangible Assets

Goodwill that arises upon the acquisition of subsidiaries is included in intangible assets. The measurement of goodwill at initial recognition is described in note to the financial statements. Subsequent to initial recognition, goodwill is measured at cost less accumulated impairment losses.

Other intangible assets that are acquired by the Group and have finite useful lives i.e. computer programme, customer database, and others, at which 2-15 years useful lives. Other intangible assets recognize at cost, net of accumulated amortization and accumulated impairment losses. Amortization is calculated using the cost less the residual value associate with its remaining useful lives. On the other hand, other intangible assets that are acquired by the Group and have indefinite useful lives i.e. intellectual property, business license, etc. are appraised at cost less accumulated impairment losses.

The Company's Risk Management

The carrying amounts of the Group's assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated. For goodwill and intangible assets that have indefinite useful lives or are not yet available for use, the recoverable amount is estimated each year at the same time.

An impairment loss is recognized if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. The impairment loss is recognized in profit or loss.

Dividend Policy

The Company's Dividend Policy

In the consideration of dividend payment, the Company will consider operating performance and shareholder returns in the long-run. Payment of dividends will be according to the Company's regulations No. 36 and No. 37. The dividend payment will be distributed according to the number of shares, each share equally. The dividend payment must be approved by the Shareholders' Meeting. The Board may pay interim dividends to shareholders occasionally, if they find that the Company has sufficient profits to do so, and reports to the subsequent Shareholders' Meeting.

The Company's Board of Directors has a policy to propose a dividend payment to shareholders at approximately 50 percent of net profit generated from operations after income tax deduction and statutory reserves from the separate financial statement by contemplating consolidated financial statement.

However, the policy will be subject to change should the Board of Directors consider the financial standing, economics situation, operating performance, ability to pay financing charges and principal repayment and comply with debt covenants and future projects and find that it is appropriate to propose the shareholders otherwise.

In addition, the Company is obliged to comply with terms and conditions of various types of debentures. In case the Company is in default of interest payments or any payment related to debentures or postponement of interest payments on debenture (as the case may be), the Company will not pay dividends to shareholders.

Subsidiaries' Dividend Policy

With respect to subsidiaries, the Board of Directors of subsidiaries has policies to distribute dividends in accordance with the operating performance of the relevant companies without determining a certain rate of dividend payment. The distribution of dividends will be based on financial position, and future investment plans of each subsidiary.

Corporate Governance

1. Corporate Governance Policy

CP ALL Public Company Limited (“Company”) is fully intent on conducting its businesses based on the principles of good corporate governance. This is so as to create value for its businesses on a sustainable basis in addition to building up confidence for its investors. This will also then enable the Company to be fully competitive and to achieve positive performance results, through keeping in mind potential long-term impacts and operating its businesses in an ethical manner, as well as through respecting the rights of and acting responsibly towards its shareholders and all stakeholders so as to benefit society as a whole and to develop or reduce any negative impacts on the environment. Additionally, it will enable the Company to adapt towards any changing operational factors in an effective manner.

The Company has established its Corporate Governance (CG) Policy together with Guidelines on Good Corporate Governance for the Board of Directors, executives and employees, supporting units for corporate governance, and the Internal Audit Office. The Company has also reviewed, improved and updated its Corporate Governance Policy so as to be current and timely with the current situation. This is also to correspond to the current laws and requirements as specified by the concerned Government authorities and other relevant regulatory organizations responsible for overseeing corporate governance practices, together with being in line with international CG standards and always being acceptable standards of CG practices. As such, this Corporate Governance Policy covers 5 key operational aspects: Rights of Shareholders, Equitable Treatment of Shareholders, Role of Stakeholders, Information disclosures and transparency, and the Responsibilities of the Board of Directors.

Additionally, the Company has also prepared and published its Handbook on Business Ethics and Code of Conduct; whereby in 2017 the Company made further improvements in the contents of this Handbook through adding relevant information relating to being a member of the Dow Jones Sustainability Indices (DJSI) with regards to giving importance to respecting human rights. This updated Handbook was communicated and distributed to all Board of Directors, executives and all employee within the organization; and training sessions were also undertaken to inform and educate our employees so that they will fully understand the required operating behavior guidelines in a correct manner, which will then result in the various operations of the Company to be undertaken with good quality and positive moral standards together with fairness, transparency, and full accountability. As such, this Handbook describes the principles and required behavior with regards to professional moral ethics and good business conducts for Board of Directors, executives, and all company employee. This is so that they will all discharge their duties and responsibilities with honesty, full adherence to all relevant laws, transparency, strict observance of the principles of fairness and positive morals, and responsibility towards society; as well as not to be involved with politics and always keeping in mind all stakeholders including the rights of various other parties specified by the law, not to be involved with any acts of human rights violation; to be against corruption, not to accept any unusual benefits or compensation, not to be involved in offering or receiving any bribes, not to be involved with any conflict of interests situations, and not to act in any way that violates or infringes on the intellectual property rights of others.

With regards to the Corporate Governance Code (CG Code) 2017 for listed companies as issued by the Office of the Securities Exchange Commission (SEC), at the Board Meeting No. 6/2017 on May 13, 2017, the Board of Directors acknowledged and considered its contents; then adopted and applied specified requirements that were suited for the Company’s business operations, and then made a summary of those requirements that were not applicable for the Company together with the related reasons and the alternative measures established by the Company; whereby all associated details have been documented and incorporated in the related Board Meeting minutes.

Throughout 2017, the Company has fully complied with the CG Code 2017 for listed companies, except for the following aspects

1. The Company needs to have more than 12 Board of Directors, whereby the current total of 15 Board of Directors is appropriate for the size and type of Company's business that is complicated, so that they can help to oversee the management operations of the Company's Subsidiaries that are both varied and numerous.
2. The Chairman of the Board is not an Independent Director, since the Company's business is complicated; whereby there is a need for a leader who is capable and well-experienced as well as with extensive knowledgeable in both overall business management and the retail business in particular. Despite the fact that the Chairman is not an Independent Director, the Company has in place an internal audit system that incorporates operating mechanisms to achieve a balance of power, is transparent and based on the principles of good corporate governance and the discharge of duties and that always take into consideration the overall benefits of all stakeholders.
3. The Company has Independent Directors with terms of office exceeding 9 years in total from the initial date of appointment as an Independent Director. This is because our type of business is complexed and thus requires Independent Directors, who are knowledgeable as well as who have specific experiences in and a true understanding of our business operations, which requires a longtime to learn and fully understand. Furthermore, despite the fact that the Independent Directors of the Company have terms of office exceeding 9 years in total from the initial date of appointment, but given their qualifications, extensive experience and reputation it will result in each of these Independent Directors being able to remain fully independent in the effective discharge of their duties. Nevertheless, effective from the date of the AGM 2018, the Company has now determined that Independent Directors of the Company cannot have a maximum term of office exceeding 9 years in total, unless the Shareholders Meeting considers and approves the reasons and necessity for appointing an Independent Director having a term of office exceeding 9 consecutive years in total as proposed by the Company.
4. The Company has not yet appointed an external consultant to help define and propose the required procedures and process for the performance evaluation exercise of the Board that should be undertaken at least every 3 years, and the results of which then should be disclosed in the Company's Annual Report. However, currently each Company Board of Director individually and each Board Committee as a group undertakes an annual self-evaluation of their performance every year; whereby they all carry out a self-assessment of their performance and express their comments in a fully independent manner. As such, the results of the performance self-evaluation activities are used to further develop the effective discharge of the duties of the Board of Directors; and both the criteria and the process used for this self-evaluation exercise are disclosed in the Company's Annual Report. However, the Company will revise the format and procedures for the required self-evaluation exercise by Board of Directors to be in line with the requirements as specified in the CG Code 2017.

2. Compliance to the Corporate Governance Policy and the various relevant Corporate Governance Operating Procedures Guidelines Applicable for the Company

Section 1 Rights of Shareholders

All shareholders are entitled to receive their basic rights, both as an investor and corporate owner, through accepted and trusted methods and standards. These rights include rights to buy, sell and transfer their shares freely; rights to receive dividends; rights to attend shareholders' meetings or assign a proxy to attend and vote on their behalf; and rights to join in deciding on important matters of the Company such as selection of directors and approval of important business transactions that will have an impact on the Company's business direction. All shareholders have the right to vote according to the number of shares they hold. Each share is entitled to one vote and no share has special privileges above other shares.

Besides the above basic rights entitled to shareholders according to the law, the Company also encourages shareholders to use their rights as follows:

Prior to the Shareholders' Meeting

The Company invited individual shareholders or groups of shareholders, who hold minimum shares of not less than 5 percent of the total voting shares of the Company, to propose agenda items in advance for the Annual General Meeting of Shareholders for the Year 2017. The Company prepared a form to propose agenda items for the convenience of shareholders and informed shareholders via the Company's website and the Stock Exchange of Thailand during 22 September until 31 December 2016. This was done 90 days before the last day of the fiscal year to allow time for the Company Secretary to screen the proposed agenda items before presenting to the Board of Directors for consideration. In considering the agenda items proposed by shareholders, there are clear and reasonable criteria. In addition, the Board of Directors has a policy not to add agenda items that have not been informed in advance unnecessarily. During this time, no shareholders proposed additional agenda items in advance.

The Company held the Annual General Meeting of Shareholders on 20 April 2017 at the Meeting Room on the 3rd floor, Convention Hall Center, Panyapiwat Institute of Management, Chaengwattana Road, Pak Kret, Nonthaburi. The Company sent out the invitation to the shareholders' meeting and accompanying documents, both Thai and English versions, to shareholders more than 21 days prior to the meeting. This information was also posted on the Company's website at www.cpall.co.th on 10 March 2017, which is more than 30 days prior to the meeting so that shareholders have sufficient time to study the information ahead of the meeting. There were no extraordinary meetings of shareholders in 2017.

The Company's invitation to the shareholders' meeting had clear agenda items and correct and sufficient information as follows:

1. Registration form with barcode that was sent along with the invitation letter to facilitate registration for shareholders
2. 3 types of proxy forms for shareholders to use as appropriate i.e. Proxy form (A), (B), and (C)
3. Minutes of the previous shareholders' meeting

4. Agenda item on appointment of directors stated information on the nominated persons to be selected for the Board of Directors including first and last name, age, education, work experience, training from the Thai Institute of Directors Association (IOD), director position held in other companies separated into listed companies and general companies, type of director position nominated, attendance at meetings in the past year, date position first held in the Company, and term of office since first appointed
5. Agenda to appoint the external auditor, which identify the name and company, education, experience and competency of the auditor, as well as the independence of the auditor and audit fee in order for shareholders to consider the competency and appropriateness of the auditor.
6. Agenda item on the approval of dividend payment stated the dividend policy, proposed dividend payment amount, and dividend payment statistics
7. Explanation on proxies, registration, and required documents to be presented on the meeting day
8. Information on the 3 directors to be appointed by the shareholder to attend and vote on his/her/its behalf; one out of the 3 directors is an independent director
9. The Company's articles of associations regarding the shareholders' meeting
10. Annual Report 2016 and Sustainability Report 2016 with information on nature of business, management discussion and analysis, auditor's report and financial statements
11. A map of the meeting venue with directions for travelling by car or public transport
12. Each agenda item clearly states whether the matter is for acknowledgement or approval, the facts and reasons, the Board's opinions, the rules and procedures for voting, and the number of votes needed for the resolution
13. In order to receive the greatest benefits from the meeting and allow directors and executives to prepare to explain on the meeting day, shareholders are invited to send their questions to the Company prior to the meeting day
14. To provide convenience to the proxies having numerous documents, especially financial institutions, mutual funds or those overseeing the securities for investors, the Company has liaised to ask for cooperation to allow the Company to check the documents in advance prior to the shareholders' meeting

At the Day of the Shareholders' Meeting

The Company organized the Annual General Meeting of Shareholders at Panyapiwat Institute of Management on Chaengwattana Road which has a meeting room that can sufficiently accommodate shareholders. Registration opened 2 hours before the meeting to allow sufficient time to check the documents of shareholders and proxies. To ensure correct and fast registration, the Company arranged sufficient staff and tables and used barcodes for registration. Upon successful registration, shareholders received voting cards for each agenda item for voting in the meeting room.

Before the meeting commenced, the Secretary of the Meeting asked for shareholders' cooperation to turn off their mobile phones to prevent disturbing the concentration of other shareholders. The Secretary then informed the shareholders of the Company's voting procedures. A shareholder of the Company's ordinary shares has one vote for each share of which he/she is the holder. Voting and vote counting was transparent. The barcode system was used in vote counting which made tallying fast and accurate. The voting results of each agenda item, including the number of agree votes, disagree votes and abstain votes, were displayed on the screen for shareholders to easily

view. In the case of agenda items where the directors have conflict of interest or agenda items concerning connected transactions, the screen also showed the number of votes not entitled to vote. In addition, a representative from the auditor was invited to oversee that the shareholders' meeting was conducted correctly in compliance with the law and the Company's regulations, and also monitored the vote counting.

Chairman of the Board of Directors, Chairman of Sub-Committees including Chairman of Audit Committee, Chairman of Corporate Governance, and Chairman of Remuneration and Nomination Committee, as well as, Independent Directors, Directors, Chairman of the Executive Committee, Vice Chairman of the Executive Committee, Managing Director and Chief Executive Officer, and the Company's top executives gave high importance to the shareholders' meeting and were present in all the meetings. The Company's external auditor was also invited to the meeting to provide information and answer shareholders' questions. Moreover, the Company invited representatives from external regulatory organizations such as the Securities and Exchange Commission (SEC) and the Stock Exchange of Thailand (SET) to observe the meeting procedures. Representatives from the Thai Investors Association also joined in asking questions at the meeting.

In case the meeting has already started, the shareholders who arrive late can still attend and vote for the remaining matters and unapproved agenda.

The Company clearly set the agenda items for the shareholders' meeting as follows:

- In the agenda item of dividend payment, the Company clearly stated its dividend policy and provided details of the proposed dividend amount, record date, tax credit for dividend payment from the Revenue Department, and history of dividend payment for the past 3 years. All details were provided in the invitation to the meeting, providing time for the shareholders to consider the information before attending the meeting.
- In the agenda item of selection of directors, the Company provided opportunity for shareholders to vote on individual directors. Each shareholder shall have a number of votes equal to one share per one vote and must exercise all the votes he/she has to appoint an individual or several persons to be director(s) but shall not split his/her votes among any person or group. The invitation letter has accompanying documents with details of the directors nominated for selection and the clearly stated voting procedures.
- In the agenda item of remuneration for directors, the Company has set the agenda item to consider and approve the remuneration of the Company's directors at the shareholders' meeting every year even though there is no change in the amount of the remuneration from the previous meeting resolution.
- In the agenda that are significant in related to law and regulations and may have impacts on the Company's operation.

The Chairman of the Meeting allocated sufficient time, conducted the meeting appropriately and transparently, and provided opportunities for shareholders to express their opinions and raise questions in each agenda item. The questions and answers were clearly and completely recorded by the Company Secretary. Each agenda item indicated the meeting resolution and result of the votes, including the number of agree votes, disagree votes, abstain votes and unentitled votes. The video recording of the meeting was posted on the Company's website after the meeting to enable shareholders who were unable to attend or interested persons to be informed of the issues discussed during the meeting.

The Company organized the Annual General Meeting of Shareholders in accordance with the related law and regulations and the Company's regulations. Only the agenda items that were indicated in the meeting invitation were considered.

After the Shareholders' Meeting

The Company disclosed the resolution of the shareholders' meeting and the voting results through the Stock Exchange of Thailand within the same day. The Company prepared and submitted the Minutes of the Shareholders' Meeting to the Stock Exchange of Thailand within 14 days from the date of the meeting as well as posted the minutes on its website within 1 month from the date of the meeting. The Company recorded the names and position of directors who attended the shareholders' meeting or were absent, voting procedures, vote counting, meeting resolution, voting results (approved, disapproved, abstained) of each agenda, including questions and answers from the meeting in the minutes.

From the assessment of the quality of the Company's 2017 Annual General Meeting of Shareholders conducted by the Thai Investors Association, the Company received a score of 98.00 out of a total of 100, higher than the average score of listed companies in the Stock Exchange of Thailand of 91.97, as well as the company's score in 2016, even though the score criteria became more challenging.

Section 2 Equitable Treatment of Shareholders

Even though each shareholder has unequal voting rights due to the different number of shares held by each, this does not mean that their basic rights as shareholders are different. The Company gives importance to and recognizes the rights of every single shareholder, whether major or minor shareholders, institutional or individual shareholders, local or foreign shareholders. Therefore, the Company will not perform any acts which are considered as preferential treatment or which will lead to unfair treatment to shareholders under related laws and regulations. In 2017, the Company performed the following:

1. Shareholders' meeting

- The Company provided an opportunity for minority shareholders to propose agenda items in advance for the Annual General Meeting of Shareholders for the Year 2017. The invitation was posted via the Company's website and the Stock Exchange of Thailand 90 days before the last day of the fiscal year to provide sufficient time for shareholders and to enable the Company Secretary to propose the agenda item to the Board of Directors for approval to be included in the shareholders' meeting.
- In the case where shareholders are unable to attend the meeting in person, the Company proposed 3 directors to be selected as proxies, one of which was Mr. Padoong Techasarintr, who is the Independent Director and Audit Committee, as an alternative for shareholders to appoint one of the directors to attend the meeting as their proxy and vote on their behalf.
- The Company sent all 3 proxy forms to shareholders so that they can choose the form that best suits their needs. However, in the invitation notice, the Company advised shareholders to use form No. 2 which has the most detail.

- The invitation to the shareholders' meeting clearly states the documents that must be brought on the day of the shareholders' meeting, separated into different cases. Documents that are required for presentation at the shareholders' meeting are according to international practice.
- The Company sent the invitation to the shareholders' meeting and associated explanatory documents in English to foreign shareholders.
- In the selection of directors, the Company votes on individual directors.
- Use voting cards for voting.
- Record the minutes of the meeting in a correct, complete and timely manner.

2. Directors and Executives

The Company has strict written procedures to prevent the use of insider information as follows:

- Established a policy to prevent the use of insider information before it is announced to the public by establishing guidelines for Directors, executives, and employees to disclose tradings of Company's shares and disseminating an announcement warning directors and executives to suspend trading in the Company's shares in the one-month period prior to and one day after the release of the Company's financial reports to the public.
- In the Board of Directors' Meeting, directors or executives with vested interests in connected transactions shall be excluded from attending the meeting and voting on that particular agenda item. In addition, if it is a transaction which must be disclosed or receive approval from shareholders according to the regulations of the Stock Exchange of Thailand, the Company disclosed the details and reasons for entering into the transaction, relationships of the connected persons, and calculations of the value of the transaction so that shareholders are informed of the details of the transaction.
- The directors and executives shall file a report of their interests and that of related persons every year and every time there is a change to the Company Secretary. In addition, copies shall be sent to the Chairman of the Board of Directors and the Chairman of the Audit Committee.
- The directors and executives shall file their holdings of the Company's shares and those held by their related persons and report to the Board of Directors' Meeting every quarter.
- Established guidelines regarding conflict of interest in the Business Ethics and Code of Conduct.
- The related transactions which occurred in 2017 are transparent and fair transactions under the ordinary course of business.
- The Company does not have a business group structure that engages in related transactions that may have conflicts of interest.

Section 3 Role of Stakeholders

The Board of Directors gives much importance to all stakeholders, through taking into consideration their respective rights as specified by the law-regardless of whether they are internal or external stakeholders. As such, this is to create mutual benefits for everyone on a sustainable basis as well as to encourage and promote close cooperation between the Company and the stakeholders in creating stability for the Company.

The Company also gives importance to conducting its business operations with a social responsibility, which also includes operating its business in an equitable manner through respecting human rights, treating the workforce equitably, acting responsibly towards all consumers, taking good care of the environment, participating in community development and Anti-Corruption.

In 2017, the Company revised and updated its Handbook on Business Ethics and Code of Conduct with regards to giving importance to respecting human rights, which is a key policy and operating guideline relating to the treatment of all stakeholders; whereby this updated edition documents all relevant revisions and has been published for distribution to all board of directors, executives and all employee for their information and strict compliance. This is for the inclusion and benefit of all stakeholders.

This CG Policy on the treatment of all stakeholders of the Company can be summarized as follows:

Shareholders: The Company is committed to conducting its business operations in an effective manner as well as with transparency and all due care, in order to achieve positive performance results together with ongoing growth and stable development of the organization, and to increase economic added value for the Shareholders in the long term. The Company also gives importance to its shareholders through adhering to the principle of all Shareholders being equal, together with looking after the benefits of all shareholders alike through having measures in place to protect against the use of inside information for personal benefit of the Board of Directors or the executives.

Customers: The Company gives importance and special attention to its customers with the highest level of responsibility so that our customers will be fully satisfied with regards to the good quality and good value received, through fully disclosing all relevant information to our customers in a transparent and equitable manner as well as through close control of our operations so as to ensure the quality of both our products and services. This is especially so relating to food products, that must be delicious, fresh, clean, safe to eat and always provide good value. Additionally, we are committed to further developing our product and service offerings together with maintaining the sustained good customer relations, through clearly establishing the policy for treating our customers in an equitable manner and acting responsibility towards our customers in our Handbook on Business Ethics and Code of Conduct, that has been widely distributed throughout the Company for awareness and adherence.

Additionally, the Company also has in place mechanisms and procedures that allow customers to access various relevant information, to contact us for business reasons, and to lodge any requests or complaints, such as: via the stores, by mail, via the Company's website, and via our Call Center

Operating Guidelines on the Treatment of the Company's Customers

1. The Company's management and employees must know and fully understand the products and services offered by CP All, as well as giving customers relevant and complete information.
2. The Company's management and employees must study and fully understand the customer requirements in detail before offering any products or services to customers to meet their exact needs; as well as always be interested to seek out additional knowledge and information together with building up their work experiences so as to be more effective at work and achieve improved customer satisfaction.

3. The Company's management and employees must treat all customers in a courteous manner and with respect, as well as must speak politely to all customers.
4. The Company's management and employees must have a positive mindset towards their work in serving customers, as well as give importance to and discharge to the best of their ability the required customer service activities. This will then result in such customer service activities to be of value and effective, and lead to achieving customer service excellence.
5. The Company's management and employees must respect the decision and opinions of customers, as well as must not infringe on any personal rights of customers. They must be happy to receive any complaints from customers and be prepared to immediately rectify the problem. In the event that there are limitations or more time is required to resolve the problem, the customer must be informed of the situation within an appropriate period of time together with periodically keeping the customer informed of the status of the problem that is being resolved.

Employees: Employees are considered to be the most valuable resources as well as being the vital heart of the Company, that enables and supports the business operations to be successful as targeted. Since the Company's operations are driven by a numerous quantity of people, much importance is, therefore, given to paying close attention to and preparing the readiness of the various aspects relating to the Company's people resources-from recruitment, screening and careful selection, to developing their capabilities and taking good care of their needs and problems. This is in order to create, build up and maintain employee engagement and loyalty and also a close relationship with them, so that they will work and grow together with the Company in a sustainable manner. This corresponds to the Company's key philosophy that "Through happy employees, we desire to see smiles from customers."

People Development through Education

Given the number of stores that are dispersed throughout every area and location of Thailand as well as that these stores provide 24-hr convenience services to consumers in every town and communities, recruiting and selecting employees are challenging tasks, in order to ensure that the Company has good and capable people, who are prepared to provide customer services that will result in customers' smiles. Thus, Company has established a foundation upon which to build and develop people by giving importance to education through creating work-based learning courses that emphasizes learning coupled with on-the-job-work experience for students with vocational education certificates or BA degrees. They will then attend courses at education centers established by the Company together with other learning institutes of the Group located in Bangkok and upcountry; whereby they will receive both a transfer of knowledge and skills alternating with on-the-job work-experience sessions at our stores and at the Company's offices. As such, these education and skills learning courses coupled with working sessions enable the Company to build up and develop human resources from the new generation of people, who are then knowledgeable and experienced-especially in the retail business-and who are well-prepared to join the Company after completing their Company education and training courses.

Creating Employees Who Are Happy and Who Enjoy Their work

The Company gives importance to the transfer of knowledge to and development of the employees at all levels of the organization, through standard training courses together with additional courses to increase both, their knowledge and their working capabilities as well as leadership skills training courses. Furthermore, the Company emphasizes self-education and further skills development through on-the-job Action Learning, through implementing ongoing training projects that offer opportunities for new employees from various business units to work together with each other under the care of appointed Mentors or “Pi Liang”, who are managers acting as personal consultants, supervising, advising and recommending what to do. Additionally, the Company has further training and development projects for ‘high talent’ personnel, that emphasizes inter-relationships among the employee; such as: Team Power training project that communicates the overall corporate objectives together with instilling a positive moral mindset and positive thinking skills through learning together by undertaking various activities aimed at participants gaining a good understanding and being prepared to pool their mutual energies in working together towards a common goal. This training project is undertaken regularly every year for all employee groups, such as: operations staff, distribution and logistics staff, HO staff, and Store Business Partners; whereby in each year there will be different key learning points and topics that focuses on various means of communications. As for activities aimed at promoting internal close employee relationships and loyalty, each employee group can select to undertaken various respective activities that are most appropriate to their type of work.

Additionally, the Company has various projects that are beneficial to our employees, such as: Work Life Quality project activities that emphasizes on taking care of the health of the employees; walk-run activities; activities aimed at enhancing CP All family inter-relationships; community activities and various other activities to help society, such as: bringing the temple to 7-11 activities undertaken by the Buddhist Religion Group, activities to benefit society undertaken by the Volunteers Group. As such, apart from being recreational activities aimed at distressing employees from their work related problems, all such activities are aimed at developing the employee to be good citizens, to have a positive public spirit, and also to be a good member of society.

In order to create happiness for the staff, the Company has a policy to recruit local staff to create income for the local community. The Company also gives opportunity for staff to voluntarily request to transfer to work in their hometown locations to enable them to stay with families and enhance bonding in the family, which is the important part of the community and the nation.

With regards to welfare benefits, the Company has a policy to focus on the quality of life of its Staff in their work together with on equal treatment for all its Staff. Therefore, there are various employee Engagement projects aimed at enabling its Staff to be happy in working for the Company. There are also regular Staff satisfaction surveys carried out every year through engaging outside research experts to undertake the surveys; whereby the survey results are then used to determine various Staff welfare benefits to be offered so as to meet the needs of the Staff, such as: hospital expenses for the employee and immediate family, life insurance for the employee, employee Provident Fund, and the employee Joint Investment Program (EJIP) that the Company has offered on a continuing basis for the 3rd year for a 5 year period (July 1, 2017 to 30 June 2022), scholarships for the employee and the employee’s children, loans for IPD hospitalization expenses, home purchase loans, welfare assistance for the employee and the employee’s family in the event of any unexpected emergencies. Additionally, the Company also gives importance to looking after and taking care of the working environment for the employee’s personal safety and safety of the employee’s belongings;

whereby a Safety Committee has been set up to oversee and train employees about various situations that may occur, to implement various Safety and Protection Programs and Systems, and to undertake various safety-related activities and the '7- Sor' project. As such details of all these projects and activities are included in the Company's "Sustainability Report 2017"

A Strong Corporate Culture for Sustainable Growth

Since 2003, the Company has been fully committed to creating and building a corporate culture of "Harmony", which respects the basic factor that differing people can still establish a common working energy and momentum in working together, as it is often said: "mixing common elements together with differing elements, so as to build unity in being part of the same band". This is achieved, as in the past, through the Company having always promoted and supported employees having to observe and adhere to the "5-7-11" working principles and values, which consist of the following factors:

- 1) The basic 5 working principles that employees must observe are: love your work, love your customers, love positive morals, love your organization, and love your work team.
- 2) The 7 values that the Company wishes every employee to have so as to achieve positive results through working together as a team are: strength, courage, keeping your word, unity, generosity, respect others, and enjoy the beauty of life.
- 3) The necessary 11 Leadership Skills for those in leadership positions so as to create trust, confidence, and respect from subordinates in working together as a team consist of: being sincere, not acting aloof as if you are better than them, talking nicely, not abusing or misusing your power, being a good role model, having positive morals, acting with kindness and compassion, being decisive, caring for society, developing good people, and being open to others.

However, the Company is fully aware of the fast-changing external factors-whether it is technology or social changes-that unavoidably affect and create new challenges for the Company, such as: having the majority of our employees being from Generation Y, accounting for more than 85% of our overall workforce. As such, having employees who work together coming from different generations and having differing beliefs is one of the major challenges that requires the Company to adapt and genuinely face up to the ongoing changes. In 2016, a summary was made of various factors and relevant information, and a corporate workshop was undertaken, with representatives of all levels of the Management Group together with more than 4,000 employee attending, to discuss and identify key issues as well as key operating aspects that would enable the organization to grow and develop in a sustainable manner for the next 30 years. As such, the information that was received together with benchmarking major operational aspects against leading domestic and international businesses were used and resulted in Concept of "Our Way" or "5 Development Aspects", that was concurred to by representatives of the Employee as being key operational aspects that must be implemented and realized in a genuine manner, which consists of the following:

- Accelerate Coaching
- Build Trust
- Call for Smart Self
- Drive Innovation
- Enrich Community Awareness

As such, the Company has defined a 3-year Plan in order to implement and realize the agreed Concept of Our Way. In 2017, the Company focused on communications, in order to build full awareness and understanding of the necessity for implementing the Concept Our Way, through communicating and informing the Concept: Our Way to all employees via all communication channels together with undertaking various workshops as a means of communicating directly with employees at the management level, with the objective of achieving 100% direct communications with this employee group. This activity plans has been fully implemented and achieved as planned.

Establishing Organization Good Governance so as to be a Sustainable Organization

2017 was the year in which the Charoen Pokphand Group and the Company gave great importance to making the organization to become an organization that will develop further in a sustainable manner. The Company started the associated Project and also issued various related initiatives together with many measures aimed at driving this Project-such as: the Corporate Governance Program, Anti-Corruption Program, and the Human Rights Due Diligence Program; as well as established mechanisms and channels of communications to receive suggestions and complaints from customers and employees such as at the stores, by mail, via the Company's website, as well as via the Call Center; and the Whistle-Blowing Program that focuses specifically on receiving complaints and inputs received from employees.

Policy on Human Rights and Treatment of the Workforce

The Company has a policy on human rights and on treatment of the workforce. This is an indication of both the recognition by and responsibility of the Company in promoting its observance of the international Declaration of Human Rights, through determining the policy and associated operating procedures that correspond to the recommendations by the UNGP: UN Guiding Principles on Business and Human Rights. Additionally, the Company is committed to maintaining the principles of the UN Global Compact on human rights (Principles 1 and 2) and the operating guidelines with regards to the workforce (operating guidelines 3-6).

3. Appointment and Removal of Board of Directors

Appointment of Board of Directors must be in accordance with the regulations of the Company and the applicable laws. As such, there must be full and clear transparency in the nominations process for new Directors, that must proceed in compliance with criteria and procedures established by the Remuneration and Nomination Committee. As such, this process must also be applicable for those persons proposed for consideration to be nominated by Minority Shareholders in accordance with the criteria and associated procedures specified by the Company. Further, the consideration of possible new nominees must also take into consideration the diversity of the qualifications, gender and age, as well as information of educational and professional background, and past experiences together with areas of special expertise including specific business skills relating to industry sectors, management, finance and accounting, legal matters, and corporate governance, so that the comprehensive information can be used in the decision process by the Company's Board of Directors and/or Shareholders.

The Shareholders Meeting will approve the appointment of new Board of Directors by a majority vote in accordance with the criteria and process as follows:

1. A shareholder is entitled to one vote per one share owned.
2. Each shareholder must use all the entitled votes as per 1, to approve the appointment of one (or more) new Directors as proposed on an individual nominee basis, but cannot divide up the total entitled number of votes by giving more votes to one nominee and less votes to another nominee.
3. The nominee receiving the highest total number of votes among the total number of co-nominees proposed will be appointed as a new Director, so as to result in the total number of new Directors that must be elected at that time. In the event of a tie, such as the second nominee also receives the same total number of votes as another nominee with the top most number of votes-which will then result in the total number of elected Board of Directors to exceed the required total number of Company Board of Directors, then the Chairman will have one additional and deciding vote.

The election and appointment of a new Director be undertaken on an individual Directorship basis and will be based upon the total number of entitled votes of those shareholders present at the time without dividing up the total number of votes. The nominee receiving the highest total number of votes for each new directorship to be chosen will be appointed as a new Board of Director.

In the case that a Director position becomes vacant for any reason other than the normal expiration of the term of office, then the Board of Directors will select and appoint a suitable person, who possesses the required qualifications as well as without any disqualifications as specified by the law in accordance with the Public Company Act and the law on securities as well as by the SET, to become a replacement Board of Director at the next Board of Directors Meeting, unless the remaining term of office of that directorship is less than 2 months. As such, the replacement Board of Director will be a Director for a period equal to the remaining term of office of that vacant position. Further, the Board resolution to appoint the replacement Director requires not less than a 3/4 majority vote of the total remaining number of Board of Directors.

A Board of Director of the Company can be removed from office prior to the expiration of the normal term of office by a resolution of the Shareholders Meeting through a vote of not less than 3/4 of the total number of shareholders present at the Meeting and entitled to vote as well as by a vote of not less than half of the total number of shares held by those shareholders present at the meeting and entitled to vote.

4. Role of the Chairman of the Board

The Chairman of the Board has the following duties and responsibilities

Internal Control and Risk Management

The Company is fully aware that internal control is one of the most important processes and that good internal control will ensure that the Company's operation system is correct, transparent and verifiable and can reduce or prevent possible damages. The Company has continuously developed its internal control system to be effective and efficient so that shareholders are confident in the Company's internal control system. The Board of Directors has appointed the Audit Committee, consisting of 3 independent directors with all qualifications according to the requirements of the Notification of the Capital Market Supervisory Board and the Notification of the Stock Exchange of Thailand, to review the Company's financial reports to ensure accuracy and reliability. In addition, the Audit Committee reviews the connected transactions or the transactions that may lead to conflicts of interest to ensure that they are reasonable and for the highest benefit of the Company; reviews the adequacy of the Company's risk management, internal control and internal audit systems; and reviews the Company's compliance with the law on securities and exchange and the laws relating to the Company's business.

The Audit Committee has assigned the Company's Internal Audit Office, which is independent from management, to be responsible for auditing and reviewing the performance of various departments in the Company and its subsidiaries to ensure that they have complied with the Company's internal control system. The Audit Committee evaluates the adequacy and appropriateness of the Company's overall internal control system which includes:

1. Control Environment

The Company promotes and supports a good internal control environment. The Company has established written policies related to corporate governance and business ethics which have been communicated to employees at all levels for their information and strict compliance. There is also a penal code for violations. The organizational structure has been set to correspond with the business plan and is regularly adjusted to be appropriate with operations. The lines of command are divided according to different fields corresponding to operation strategies and corporate governance. This ensures that management and employee performance is effective and can be clearly monitored, inspected and evaluated. The Internal Audit Office, which is independent and reports directly to the Audit Committee, is responsible for examining and verifying performance, supporting a good internal control environment. In addition, the Company recognises the importance of continuous human resource development and provides trainings in order to enhance knowledge and skills required for the assigned task. Furthermore, the succession plan is established in order to ensure business continuity.

2. Risk Assessment

The Company has set up a good risk management system throughout the organisation. The Risk Management Committee is responsible for establishing the policy framework as well as systematic risk management, which are communicated to employee. Risk Champion is assigned in each unit in order to give advice and support risk assessment within their own unit. Every unit assesses risk factors in various areas, impacts, possibility of occurrence, and risk management plan in line with changes in internal and external risks including corruption risk. Consequently, each unit also determines clear measures to manage risks at acceptable levels; as well as manages existing risks promptly and effectively. The Company has established a Business Continuity Plan (BCP) and Disaster Recovery Plan (DRP) to prepare for risks and crises which may occur to ensure that the Company's major operations will have continuity and not be halted. The work performed by the Risk Management Committee is reported to the Audit Committee and the Board of Directors every 6 months. The Internal Audit Office also monitors whether various units have followed the risk management measures in order to ensure that the Company's risks are at acceptable and manageable levels.

3. Control Activities

The Company has clear and appropriate control activities. KPIs assist in planning and control. The Business Ethics and Code of Conduct and the Company's corporate governance policy provide guidelines for performance of duties. All employees are made aware of the Code of Conduct since the orientation for new employees. The Company has clearly defined the duties and responsibilities of various work functions. Correctness can be cross-checked to reduce risks in corruption or inappropriate actions. The authority and approval limit of various types of transactions of executives are clearly written in the "Authority Handbook". Furthermore, the IT system classifies the roles as well as control and access to information at various levels. The IT system has set access codes and an information database which can be later retrieved for verification. The policy regarding information security and information system has been announced and disseminated among employees at all levels to be aware of and strictly comply with information security. Procedures regarding connected transactions and the transactions that may lead to conflicts of interest are clearly stated to ensure transparency and the greatest benefits of the Company. The Internal Audit Office regularly reviews the adequacy and appropriateness of the control system, with the audit plan also covering important work processes.

4. Information and Communication

The Company recognizes the significance of information systems and communication. There are both internal and external communication channels to ensure that the decision-making of the Company's shareholders, stakeholders, directors, and executives are based on information that is correct, adequate, reliable and up-to-date. Important and general information is disclosed in the annual report and Form 56-1 through the Company's website www.cpall.co.th and the Stock Exchange of Thailand. The Company's policies, regulations, announcements and important news are clearly communicated to all employees via various channels. In addition, safe compliant communication channel is available, which the complaint's investigation guidelines are clearly established and will take action in a timely manner. Complaints can be filed through company's website or direct to Audit Committee at [Audit Committee@cpall.co.th](mailto:AuditCommittee@cpall.co.th) or other channels as stated in the Annual Report under Anti-Corruption Policy in the Corporate Governance Section. With regards to the Board of Directors Meeting, the Company will send the invitation to the meeting, agenda, and related meeting documents in advance within the regulated time period so that directors have sufficient time to consider the information before attending the meeting. The minutes of the Board of Directors Meeting is prepared for every meeting, recording the inquiries of directors and the opinions or observations of directors for each agenda item. Moreover, the Company has an information database that can be used for the Company's business operations. All documents are stored by category, especially financial documents which are essential in preparing financial reports. In addition, the Company has a clear policy regarding information control in terms of access and improper use of information, which is in line with the Computer Related Crime Act.

5. Monitoring

The Company regularly monitors performance to evaluate whether the set KPIs have been achieved as planned as well as analyzes the reasons in case the results were not as planned. The Internal Audit Office, which is an independent unit, reviews and audits operations to be in line with the control system, with emphasis on operational processes with high risk. The Internal Audit Office directly reports matters found to the Audit Committee and regularly monitors the improvements and remedial actions made by the unit that was audited. The Audit Committee reports the audit results to the Board of Directors every quarter. In addition, the Audit Committee meets with the Company's external auditor to evaluate the adequacy and effectiveness of the Company's internal control system.

In 2017, the Audit Committee had the same opinion with the external auditor that there was no material weakness in the internal control system. The Company has a sufficient and appropriate internal control system for its business and all units complied with the procedures and regulations. No material weakness was found in the internal control system.

The Company's policy on the rates of revenue and expenses with connected parties are as follows:

Revenue from sale of goods: The rates are in line with normal business practice and general commercial conditions and standardized with revenue collection from general customers.

Revenue from rendering of services and other income: The rates are in line with normal business practice and general commercial conditions.

Cost of sales of goods and rendering of services: The rates are in line with normal business practice and general commercial conditions and standardized with purchases made general customers.

Cost of rendering of services and other expenses: The rates are in line with normal business practice and general commercial conditions.

Acquisition of assets: The rates are in line with normal business practice and general commercial conditions and standardized with acquisitions made with general customers.

In 2017, the Company and its subsidiaries did transactions with related parties which these inter-company transactions were made and agreed as a normal business transaction at general market prices and commercial terms. (Details are provided in Note 5 of the Company's financial statements for the year ended December 31, 2017). The Audit Committee has reviewed that all transactions were reasonable and transparent and complied with the rules and regulations under the Notification of the Stock Exchange of Thailand regarding Related Transactions of a Listed Company.

Procedures for the Approval of Related Transactions

In the case of transactions for the purchase and sale of goods and services under the ordinary course of business, the Company has procedures to protect investors and prevent the transfer of interests. The Internal Audit Unit reviews the necessity of inter-company transactions and ensures that the prices of the transactions for goods and services are at the prevailing market rates. The Internal Audit Unit provides reports of related transactions to the Audit Committee every month and the Audit Committee further reports to the Board of Directors every quarter.

In reference to transactions with possible conflicts of interests or related transactions, the Audit Committee will review and ensure that transactions comply with the regulations of the Stock Exchange of Thailand Re: Disclosure of Information and Other Acts of Listed Companies Concerning the Connected Transactions, 2003 and the notification of the Capital Market Supervisory Board No. TorChor. 21/2551 Re: Rules on Connected Transactions. The Audit committee will comply with the Securities and Securities Exchange laws, regulations and announcement from the Stock Exchange of Thailand, as well as the disclosure rule of the connected transaction. The policy on conflicts of interests is clearly stated in the Company's Code of Business Ethics for the directors and employees to correctly follow. In addition, the Related Transactions Review Committee has been established to monitor that these transactions are in accordance with the notification of the Capital Market Supervisory Board.

In the case of the purchases and sales of important assets of the Company and its subsidiaries, which are transactions that occur infrequently, the Company has a policy to engage external independent experts such as professional appraisers and independent financial advisors to provide counsel to the Audit Committee for further proposal to the Board of Directors.

Policy on Related Transactions

The Board of Directors has a policy that clearly states that related transactions may occur under the ordinary course of business but these transactions must be necessary and have prices comparable to prevailing market rates for the best interests of the Company. There shall be no transfer of benefits between the Company and related companies or persons. As the Company and its subsidiaries operate a retail business and must purchase and sell goods and services with other companies as well as related companies, the Company expects related transactions for the purchase and sale of goods and services will still exist in line with the Company and its subsidiaries' business expansion. Other types of transactions will depend on business necessity. Short-term loans to related companies will depend on the short-term financial needs of the related companies and the Company's policy on cash flow management.

Board of Directors' Statement of Responsibility for Financial Reports

The Board of Directors of CP ALL Public Company Limited strongly values the duties and responsibilities in accordance with good corporate governance principles. The Board of Directors is responsible for the separate and consolidated financial statement of the Company and its subsidiaries including financial information presented in the annual report and the annual financial statements for the year ended December 31, 2016, which are prepared according to Accounting Standards and Financial Reporting Standards as announced by Thailand Federation of Accounting Professions (FAP) and correspond with the Generally Accepted Accounting Standards of Thailand. The Board of Directors has selected and consistently followed an appropriate accounting policy. The aforementioned financial statements are prepared using careful judgment and the best estimation. In addition, important information is adequately disclosed in the notes to the financial statements. The financial statements have been examined by an independent external auditor and the auditor has expressed an unqualified opinion. Therefore, the financial statements accurately and transparently reflect the Company's financial status and operating performance in the past year and can be used for the benefit of shareholders and investors.

The Board of Directors has appointed the Audit Committee, which comprises of independent directors, to review the quality of the financial reports and to evaluate the internal control system, risk management system, and various systems to support effective financial documentation to ensure that accounting records are correct, complete, timely, adequate to protect its asset, as well as able to prevent fraud or materially irregular operations. The Audit Committee's opinion is presented in the Audit Committee's report which is a part of this annual report.

The Board of Directors believes that the effectiveness of the Company's overall internal control system is satisfactory and able to create credibility and reliability for the separate and consolidated financial statements of CP ALL Public Company Limited and its subsidiaries for the period ended December 31, 2016.

(Mr. Korsak Chairasmisak)
Chairman of Executive Committee

Report of the Audit Committee

The Company's Board of Directors appointed the Audit Committee consisting of the three independent non-executive directors who are knowledgeable and have experiences in various sectors such as legal affairs, organization management, financial accounting and taxes. The Audit Committee members have composition and qualifications according to the regulations of the Stock Exchange of Thailand, comprising of Prof. Dr. Komain Bhatarabhirom, as the Chairman of the Audit Committee, Mr. Pridi Boonyoung and Mr. Padoong Techasarintr, as members of the Committee and including Mr. Kidsada Euapiyachart, the Vice President of the Internal Audit Office, as the Audit Committee Secretary.

The Audit Committee had performed the duty independently within the boundary of the roles and responsibilities as stated in the Audit Committee Charter. This was to ensure that the Company's operations were carried out with transparency, honesty and fairness in accordance with the good corporate governance principles and for the best interest of the Shareholders. The Audit Committee received good cooperation from the Company's Management and both the Internal and External Auditors.

During the year 2017, the Audit Committee had 12 meetings with the presence of all the three committee members in every meeting. These meetings were held with the Internal Auditors and sometimes the External Auditors and the Management of the Financial Accounting Department and the Operations Departments were invited to attend some agenda for exchange of ideas and suggestions. The main topics of the meetings were summarized and reported to the Company's Board of Directors every three months. Important issues are summarized as follows :

1. Review the quarterly and annually consolidated financial statements of both the Company and its subsidiaries for the year 2017 in order to consider the financial reports, the disclosure of information in the notes to financial statements, special transactions and the critical projections. This was to ensure that the financial reports of the Company and its subsidiaries were duly prepared in conformity with the accounting standards currently enacted, with complete, sufficient and reliable disclosure of information. Moreover the Audit Committee had a meeting with the external auditors without the participation of the Company's management in order to have a discussion on the key agendas which were relevant to the review and audit of the financial reports, as well as the change of accounting standards and financial report standards. The external auditors reported that there were no significant problems pertaining to accounting and finance. They had freedom and received good cooperation while carried out their duties.

The Audit Committee has the opinion that the mentioned financial reports were essentially correct according to the accounting standards with complete and sufficient disclosure of information and its notes as well as in time for the benefits of the shareholders and the users of the financial statements.

2. Reviewed and revised the adequacy and appropriateness of the internal control system of the Company and its subsidiaries to reasonably ensure sufficiency of the internal control system of the Company's operations in line with the approved annual plan and ability to achieve the set objectives and goals. This was considered from the monthly audit report of the Internal Auditors in order to assess the internal control system, risk management, and creditability of the financial reports. The Audit Committee also acknowledged the progress report on recommended corrective actions to ensure that the Company was able to solve problems in a timely manner. In addition, the Audit Committee also enhance the audit quality improvement and provide constructive comments on effectiveness of internal control system as well as regularly monitor the results.

The Audit Committee had an opinion that the internal control system of the Company was efficient, appropriate and adequate for the business. At the same time, there was a continuous improvement in the quality of the internal control in term of personnel and implementation.

3. Reviewed the appropriateness in dealing with the related transactions or the transactions which might cause conflict of interests ; they were justifiable and yielded the highest benefits to the Company's operations and its shareholders. This included the observations for ensuring disclosure of information and operating in compliance with the announcements of the Securities and Exchange Commission and all the relevant laws. In addition, the Audit Committee instructed the Internal Auditors to emphasize reviewing the related transactions between the Company, its subsidiaries and the related parties and report those transactions to the Audit Committee meeting every month and to the Board of Directors meeting every quarter.

The Audit Committee agreed that the related transactions or the transactions which might cause conflicts of interests were transparent, fair and generated the utmost benefits to the Company's operation and its shareholders. The same commercial conditions used with the external parties were applied. In addition, the complete and sufficient disclosure of information in accordance with the law and the regulations of the Securities and Exchange Commission was also observed.

4. The Audit Committee and the Management emphasized on the risk management. The Risk Management Committee was set up and had duty to assess the risks covering all aspects, both internal and external factors, and their possibility to happen and affect the businesses. The Risk Management Committee also established preventive measures in order to mitigate the possible impacts and keep them at the acceptable level. Moreover, the Risk Management Committee constantly monitored the progress of risk management in order to improve various measures to respond to the current changing situation. The Risk Management Committee also communicated to all employees to raise their awareness and cooperation in looking for risks and organized a competition on risks found. The summary report of the works of the Risk Management Committee was submitted to the Audit Committee and the Board of Directors every 6 months. Furthermore, the Internal Auditors were assigned to monitor and to inspect whether the risk mitigation guidelines were being followed. This was to ascertain that the Company's risks were kept at the acceptable and manageable level.

The Audit Committee agreed that the risk management system of the Company was appropriate and sufficient for its operations. The assessment of risks, the management of risks and its progress monitoring as well as the revision of risks in order to respond to the current situation were regularly carried out.

5. The Audit Committee found that the Management had a clear approach in working according to the laws. The Compliance Unit was established in order to observe the operation in accordance with the Securities and Exchange Act, the regulations of the Stock Exchange of Thailand, Revenue Code, and all the laws which are important and relevant to the Company's business including the Anti-Corruption Guideline. A staff has been designated to be directly responsible for this matter. According to the review, it was not found that the Company deliberately refrained from or significantly worked against the law, the procedures or regulations that are relevant to the Company's business.

6. The Audit Committee reviewed the Audit Committee charter to align with Collective Action Coalition Against Corruption (CAC) and Dow Jones Sustainability Indexes (DJSI), and considered the annual internal audit plan that were in line with the Company's goals and risks. Moreover, the Audit Committee also considered and approved the scope of work, duties and responsibilities, sufficiency of manpower and knowledge and capabilities of personnel to ensure efficiency and effectiveness of audit work according to the set work plan.

The Audit Committee had an opinion that the internal auditing system of the Company was independently carried out, the audit plan was in line with the Company's strategy and risk and the Company promotes trainings for employees in order to work effectively and efficiently according to international standard.

7. The Audit Committee had conducted an annual review of their works and self-evaluation according to the proper guidelines. According to the evaluation result the Audit Committee effectively performed their duties in accordance with the scope of duties and responsibilities as stated in the Audit Committee Charter.
8. The Company's Board of Directors and Management were determined to manage the business by adhering to the good corporate governance principles, working in accordance with laws, regulations and the Company's code of ethic. This was to build confidence of the shareholders and the stakeholders. The Corporate Governance Committee was appointed to drive the governance process for more efficient and effective execution. The operating results will directly be reported to the Board of Directors. On the back of good corporate governance, CPALL was admitted to the 2017 Dow Jones Sustainability Index (DJSI) Emerging Markets in the category of Food & Staples Retailing. In addition to that, the Company was certified as Private Sector Collective Action Coalition Against Corruption Council ("CAC") Member Company and become a member of United Nations Global Compact (UNGC).
9. The Audit Committee reviewed the selection of the Auditors and expressed their opinion to the Board of Directors for further endorsement at the shareholders' meeting. It was approved at the shareholders' meeting the appointment of Mr. Charoen Phosamritlert, or Mr. Veerachai Ratanajaratkul, or Ms. Munchupa Singsuksawat of KPMG Phoomchai Audit Ltd. as the Company's external auditors for the year 2017 with the total fees of Baht 5,413,000.

In summary, the Audit Committee had an opinion that the Company's Board of Directors, the Executive Directors as well as the Management were determined to work in achieving the goals with professional quality. They have been giving the priority in working efficiently and effectively with transparency and accountability. The risk management, the policy of good corporate governance as well as the internal control systems were appropriate and circumspective.

Management Discussion and Analysis (MD&A)

Discussion and Analysis of Financial Position and Operating Results

Financial position and operating results of the Company reported in the consolidated financial statements were generated from 3 main businesses including 1) convenience store business in Thailand 2) other businesses in Thailand such as manufacturing and sale of ready-to-eat food and bakery products, bill payment service, and sale and maintenance of retail equipment, and 3) membership based Cash & Carry trade centers.

Retail Competitive Environment

In 2017, despite a gradual recovery of Thai economy, the development was mainly driven from export that rose in corresponding with improving global economy and tourism sectors that expanded from higher Chinese tourist arrivals. However, overall domestic spending in the first half of 2017 remained soft from the year before regardless of a better spending in the high-income segment as seen in higher sales of durable products especially vehicle sales that posted high growth. Spending in the mid- to low-income segment continued weak as high household debt and fragile consumer confidence towards economic recovery subdued household consumption. Nevertheless, in the second half of 2017 consumer spending and confidence was progressively restored as the Government stimulus scheme on shopping tax incentive during November has helped to stimulate economic growth and lifted spending.

Nevertheless, notwithstanding complicated economic factors in Thailand, retailers have proven to be resilient on the back of active new product and service and marketing strategies that constantly served the ever-changing demand of customers, which in 2017, Thai Retailers Association assessed the overall retail sector moderately grew by 3.4 percent.

In 2017, total numbers of convenience store in the chain store format were 15,883 stores, an increase of 1,036 stores from last year. (Source: CPALL's company data) The increase was largely from 7-Eleven's store expansion, while other operators focused on renovations of existing stores. As a result, CPALL has dominated the convenience store market in Thailand with 65 percents market share, followed by Tesco Lotus Express and Family Mart.

Analysis of Operating Results for the Year Ended December 31, 2017 compared to the Operating Results for the Year Ended December 31, 2016

In 2017, the Company and its subsidiaries' total revenues were Baht 489,403 million. An increase of 8.3 percent from that of 2016 was mainly driven by higher sales revenue and services income of convenience store business, other supporting businesses and the cash & carry business under the name "Siam Makro". Resilient revenue growth was a result of the Company's strategy to remain vigorous in store expansion to correspond to the change in consumer lifestyle, to serve convenience to all communities, and to offer products and services that accommodate to customers demand.

Total revenues before elimination contributed from three businesses were, (1) convenience store business accounted for 57 percent (2) membership based Cash & Carry trade centers accounted for 36 percent, and (3) other businesses in Thailand such as manufacturing and sales of convenience food, payment service, distributing and maintenance of retailing equipment accounted for 7 percent. The revenue contribution from three businesses were at a similar level in 2016.

Gross Profit

In 2017, the Company and its subsidiaries' gross profit was Baht 105,067 million, increased by 10.6 percent from last year, which was mainly due to improved performance of the convenience store business, Siam Makro's business, and other supporting businesses. In addition, the Company has developed product strategy to customise products that respond to customer's needs and increased sales participation of higher-margin products such as ready-to-eat food, health and beauty products, as well as Makro's fresh food products. Thus, gross margin in the consolidated financial statement increased from 21.9 in 2016 to 22.3 percent in 2017.

Selling and Administrative Expenses

In 2017, the Company and its subsidiaries' selling and administrative expenses rose to Baht 91,902 million, increased by 9.8 percent from last year. Selling expenses were Baht 77,300 million or up 8.6 percent YoY. Detail of selling expenses with significant changes as follows:

- 1) Store management fees expenses were Baht 17,632 million, up 10.5 percent from last year, mainly from higher revenue from sales and gross profit margin. In addition, store business partner stores also increased according to the Company's store management strategy to expand more in store business partner format.
- 2) Sales personnel expenses were Baht 15,779 million, up 8.0 percent from last year, mainly due to an increase in numbers of personnel from store expansion of both convenience store business and Siam Makro business.
- 3) Rental and depreciation and amortization expenses were Baht 6,729 million and Baht 6,874 million, up 11.6 percent and 13.0 percent from last year respectively mainly due to expenses related to new store expansion, existing store renovation, as well as investment in other supporting businesses.
- 4) Other expenses such as advertising and sales promotion expenses, utility expenses and other expenses including service fee and supplies costs also increased in accordance with sales growth and increase in number of stores.

In addition, administrative expenses were Baht 14,602 million, which an increase by 17.1 percent YoY was largely owed to higher personnel expenses, rental expenses, and depreciation and amortisation expenses.

Profit Before Tax and Net Profit

In 2017, profit before tax was Baht 23,506 million, up 16.7 percent from last year. Net profit was Baht 19,908 million, up 19.4 percent from last year and earnings per share was Baht 2.14. The improvement in net profit was mainly due to revenue growth, better cost and expense control resulting in improving margins as well as decrease of finance cost from refinancing and lower income tax expenses, from the windfall from government's tax advantage on the Company's certain capital expenditure incurred during 2016-17.

Profit before tax before elimination be contributed from three businesses in 2017 were (1) convenience store business accounted for 63 percent (2) membership based Cash & Carry trade centers accounted for 25 percent, and (3) other businesses in Thailand such as manufacturing and sales of convenience food, payment service, distributing and maintenance of retailing equipment accounted for 12 percent. The revenue contribution from three businesses were at a similar level in 2016.

Operating Results by Business Segments

Convenience Store Business

In 2017, the Company continued to expand “7-Eleven” stores to serve convenience to all communities in Bangkok and provincial areas. The new stores were in various store type including corporate, store business partner (SBP) and sub-area, where some were stand-alone stores and other were in PTT gas stations. The Company has planned to open 700 new stores per, which during 2017 the Company has successfully opened 726 new stores in various formats. At the end of 2017, CPALL operated 10,268 stores nationwide, which can be broken down into (1) 4,530 corporate stores (44 percent of total stores), an increase of 325 stores from last year, (2) 5,017 store business partner stores (49 percent of total stores), an increase of 372 stores from last year, and (3) 721 sub-area stores (7 percent of total stores) an increase of 29 stores from last year.

Regarding products and services, the Company strived to become “the convenience food store of Thais” with the continuous improvement in food and beverages and new products. These products has received great feedback from customer as lifestyles get busier and looking for convenience. In 2017, food and beverage products accounted for 70.6 percent of sales mix, while non-food items (excluding phone cards) accounted for 29.4 percent. As sales of both food and non-food categories grew largely at the same pace, product mix remained relatively the same with last year.

On the back of the dynamic expansion and successful product strategy, in 2017 the convenience store business had total sales revenue and service income of Baht 278,751 million, increased by Baht 22,350 million or 8.7 percent YoY. Gross profit amounted to Baht 78,235 million, increased by 5,684 million or 7.8 percent YoY, yet gross profit margin dropped to 28.1 percent from 28.3 percent in 2016 owing to higher oil prices which pressured logistics cost and partly from lower service income. Nevertheless, the Company was able to maintain sales mix of higher-margin products at a satisfactory level.

Meantime, other income of the convenience store business increased to Baht 17,997 million in 2017, or an increase of Baht 931 million or 5.5 percent from last year as mainly from higher income on royalties and other fees relating to license income from SBP stores as well as higher sales promotion income from co-promotion campaigns with suppliers to boost sales such as premiums redemption and stamp collection campaign.

SG&A expenses were Baht 76,244 million in 2017, or an increase of Baht 5,706 million or 8.1 percent YoY. Higher expenses included personnel expenses, store management fee and depreciation expense, in related to store expansion in which most of are in larger size than existing stores and renovation of existing stores.

Operating profit of the convenience store business was Baht 25,825 million, increased by 8.2 percent from last year, while net profit was Baht 16,618 million, increased by 17.9 percent YoY.

Other Businesses

Other businesses comprise of bill payment services, manufacturing and sale of ready-to-eat food and bakery products, distribution and maintenance of retail equipments and other businesses that mainly support the convenience store business. The Company remained active to develop new products or services that match with customer demand such as negotiating with the business partners to expand service channels of Counter Service or e-commerce retailing to provide convenience to customer. In 2017, profit before tax was Baht 3,312 million, increased by 17.6 percent from last year.

Cash & Carry Trade Centers

In 2017, Siam Makro's total revenues were Baht 186,757 million, increased by 8.1 percent YoY due to higher same store sales growth and revenue from sale of goods of new stores opened in the past year. Gross profit to total revenue increased to 12.0 percent from 11.0 percent in 2016, driven from higher sales mix of higher-margin products such as fresh food products. Hence, profit before tax was Baht 7,271 million increased by 15.9 percent YoY. (Note: investors can find additional details in Form 56-1 for the year 2017 of Siam Makro)

Income on royalties and other fees relating to license income rose to Baht 2,132 million, up 10.4 percent YoY, and other income from ATM installation and mobile phone's top-up card booth amounted to Baht 6,058 or up 15.7 percent YoY.

Analysis of the Company and its Subsidiaries' Financial Status for the Year Ended December 31, 2017

Total Assets

As at December 31, 2017, the Company and its subsidiaries reported total assets of Baht 360,299 million, an increase of 2.3 percent compared to the end of 2016 was largely from an increase in property, plant, and equipment. Assets with significant changes are as follows:

Cash and cash equivalents was Baht 28,879 million. A decrease of Baht 4,564 million or 13.6 percent YoY was mainly from repayment of matured debentures during 2017.

Trade accounts receivable was Baht 1,601 million, increased by Baht 575 million or 56.0 percent YoY mainly from an increase in trade accounts receivable of Siam Makro post its purchase of share of Indoguna in early 2017. However, trade accounts receivable was a normal course for this business.

Other accounts receivable was Baht 6,712 million, increased by Baht 79 million or 1.2 percent YoY following higher sales and services revenue. Hence, majority of receivable were from sales promotion income, royalties income, and service income.

According to the aging analyses for trade and other accounts receivable, 97 percent of trade and other accounts receivable had credit term less than three months.

Trade and other accounts receivable are stated at their invoice value less allowance for doubtful accounts. The allowance for doubtful accounts is assessed primarily on analysis of payment histories and future expectations of customer payments. Bad debts are written off when incurred.

Inventories were Baht 27,376 million, increased by Baht 672 million or 2.5 percent YoY following higher sales revenue. Thus, inventory turnover ratio increased to 13.54 times in 2017 from 13.12 times in 2016.

An allowance for losses is made for all deteriorated, damaged, obsolete and slow-moving inventories.

In addition, other current assets was Baht 621 million, decreased by Baht 96 million or 13.3 percent YoY from a decrease in cash cards.

Regarding the investment plan, the Company has continued to invest in order to explore new business opportunity and improve support existing operation of the Company such as store expansion, new distribution center, new ready-to-eat food manufacturing facility, new distribution channel. The investments were directly made from the Company and its subsidiaries. In 2017, investments in subsidiaries were Baht 206,833 million, increased by Baht 1,296 million or 0.6 percent YoY mainly from 1) additional investment in Lotus Distribution Investment Limited for the purpose of capital injection in indirect subsidiaries who operate commercial trading, investment, education and for business opportunity in the People's Republic of China and 2) additional investment in All Corporation Limited.

Property, plant and equipment amounted to Baht 106,394 million. An increase of Baht 7,267 million or 7.3 percent YoY was from store expansion of both 7-Eleven convenience stores and Siam Makro trade centers. Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any.

Goodwill was Baht 128,328 million, increased by Baht 2,256 or 1.8 percent YoY. During 2017, goodwill arose from Siam Makro's purchase of share at 80 percent shareholding each of 4 companies including Indoguna (Singapore) Pte Ltd, Indoguna Dubai L.L.C, Just Meat Company Limited and Indoguna Lordly Company Limited.

At initial recognition, goodwill is measured at the fair value of the purchase consideration, including non-controlling interest net book value (generally fair value) of assets and liabilities. During the year 2017, the Company measured fair values of assets acquired and liabilities derived from the business combination of Siam Makro and recorded the difference between the acquisition price and fair value of the net assets of such business combination as goodwill.

Other intangible assets were Baht 51,249 million, a majority of which was an intellectual property amount Baht 46,521 million arose from business combination of Siam Makro. Other intangible assets were divided into two categories: 1) asset with finite useful lives i.e. computer software and customer database with useful life of 2-15 years are measured at cost less accumulated amortisation and accumulated impairment losses and 2) other intangible assets that have indefinite useful lives i.e. intellectual property, business license, etc. are measured at cost less accumulated impairment losses.

The carrying amount of the Group's assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated. For goodwill and intangible assets that have indefinite useful lives or are not yet available for use, the recoverable amount is estimated each year at the same time. An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. The impairment loss is recognised in profit or loss.

Other non-current assets were Baht 998 million, an increase of Baht 151 million or 17.8 percent which included higher guarantee deposits that rose in line with the Company's business expansion.

Total Liabilities

As at December 31, 2017, the Company and its subsidiaries had total liabilities of Baht 280,070 million, decreased by Baht 12,595 million or 4.3 percent YoY. Liabilities with significant changes are as follows:

Trade accounts payable were Baht 74,742 million, an increase of Baht 7,784 million or 11.6 percent YoY following higher sales revenue of convenience store business and Siam Makro business.

Interest-bearing liabilities were Baht 167,038 million in 2017, a decrease of Baht 22,068 million or 11.7 percent YoY. In 2017, the Company completed 3 debenture issuances with a total amount of Baht 25,500 million and also issued perpetual debenture for the second time amount Baht 10,000 million in order to refinance for debentures matured during the year amount Baht 25,937 million and exercise call option. Thus, net debt to adjusted equity (according to definition of debenture covenants, equity shall be adjusted with deferred tax) was at 1.44 times in 2017, decreased from 2.08 times in 2016. The Company's net debt to adjusted equity was lower than debenture covenants in 2017.

Other current liabilities were Baht 14,079 million, increased by Baht 1,269 million or 12.8 percent YoY mainly from an increase in accrued personnel expenses, accrued royalties and other accrued expenses, other payable, deferred royalties and other deferred income, and accrued utilities expenses which rose in related to business expansion.

Deferred tax liabilities were Baht 15,170 million, increased by Baht 16 million or 0.1 percent due to fair value adjustment of asset acquired from the business combination of Siam Makro. Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Regarding contingent liabilities and off balance sheet liabilities management, the Company has contingent liabilities with third parties including: 1) commitments for capital expenditure, which is the contract that has not yet been realised such as cost of construction of new factories, cost of installing the machinery or computer system development, operating lease commitments that cannot be canceled, which covers the lease of land, buildings, vehicles and other assets and 3) other commitments by the obligations of the Company, which incurred in the normal course of business operations, such as the Letter of Credit that has not yet been used for the purchase of goods and supplies.

Total Shareholders' Equity

As at December 31, 2017, the Company and its subsidiaries had total shareholders' equity of Baht 80,229 million, an increase of Baht 20,626 million or 34.6 percent from 2016. This was mainly due to an increase in profit from business operation amount Baht 19,908 million and dividend payments of Baht 8,983 million to shareholders for the fiscal year of 2016. In addition, an increase in shareholders' equity was from an issuance of subordinated perpetual debentures amount Baht 9,956 (net of issuance costs) in November 2017.

Analysis of Statements of Cash Flows, Liquidity and Sources of Funds of the Company and its Subsidiaries for the Year Ended December 31, 2017 Compared to the Year Ended December 31, 2016

In 2017, net cash flow from operating activities totaled Baht 46,156 million, up 21.7 percent from the same period of last year due to an increase in operating profit as well as efficiency in working capital management.

Cash Flow from Investing Activities

In 2017, net cash flow used in investing activities amounted to Baht 20,380 million increasing by 8.4 percent from the same period of last year. Investments in assets were used in the normal course of business such as land, buildings and leasehold improvements, as well as capital expenditure on stores expansion and renovation of 7-Eleven and Siam Makro business.

Cash Flow from Financing Activities

In 2017, net cash flow used in financing activities totaled Baht 30,120 million. The key financing activities were interest payment, dividend payment, as well as repayment of matured debentures and exercise call option during the year.

Financial Ratio Analysis

Net debt to equity

As at December 31, 2017, the Company and its subsidiaries net debt to adjusted equity according to definition of debenture covenants was at 1.44 times, decreased from 2.08 times in 2016. Lower net debt to equity was mainly driven by larger shareholders' equity base from increase in profit from business operation and issuance of subordinated perpetual debenture during the year. Also, the Company paid dividend payments of Baht 1.0 per share to shareholders for the fiscal year of 2016.

In addition, the Company plans to continuously reduce all interest-bearing debt obligations from our improving cash flow from operations after the allocation of dividend payment and capital expenditure investment. Therefore, net debt to equity is expected to be lower, while the Company is obligated to comply with debenture covenants

net debt to equity ratio at	5	times in 2016
net debt to equity ratio at	3.5	times in 2017
net debt to equity ratio at	2.5	times in 2017

Factors which may Impact Operating Results and Financial Status of the Company and its Subsidiaries in the Future

CPALL regards the ever-changing customer demand as a major factor that impacts the Company's revenue and net profit. With our best effort, CPALL endeavors to offer products and services that correspond to the change in customer lifestyle, in order to attract more customers and deliver higher sales revenue. Moreover, the Company aims to increase the sales participation of the higher-margin ready-to-eat food products in order to enhance our profit margins. We also reaffirm our dynamic store expansion plan in order to reach customers in all provinces. Regarding other businesses such as bill payment services, manufacturing and sale of food and bakery products, maintenance of retail equipment, as well as new projects in co-operations with various organizations to develop innovation under "7 Innovation Awards", CPALL continues to provide support to the small and medium business enterprises in order for them to be able to grow along with the Company. At the same times, these businesses will support the Company's efficient operation and differentiate our products and services from competitors, resulting in higher revenue of the Company.

For supply chain management, currently the Company has a total of 7 regional distribution centers for consumer products, 9 regional distribution centers for temperature-controlled products, and 2 regional distribution centers for frozen products, making CPALL the retailer with the largest distribution center coverage in Thailand. These distribution centers will support the Company's future store expansion and enable efficient delivery system, which eventually strengthen the Company's competitive advantage in the long term.

Regarding Siam Makro business, we expect improving sales revenue on the back of its highly resilient operation and store expansion. Although the Company incurred interest-bearing debts from such acquisition, we believe that our improving operating cash flow will be able to service all debt obligations.

Others

In 2017, the Company has expenses related to research and technological development that were certified by Research and Technological Development Project of the National Science and Technology Development Agency amount Baht 2.53 million. Majority of the projects were related to ready-to-eat food products which also support the Company's business operation.

**ANNUAL FINANCIAL STATEMENTS
AND AUDITOR REPORT
OF CERTIFIED PUBLIC ACCOUNTANT**

for the year ended 31 December 2017

Independent Auditor's Report

To the Shareholders of CP ALL Public Company Limited

Opinion

I have audited the consolidated and separate financial statements of CP ALL Public Company Limited and its subsidiaries (the "Group") and of CP ALL Public Company Limited (the "Company"), respectively, which comprise the consolidated and separate statements of financial position as at 31 December 2017, the consolidated and separate statements of income and comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

In my opinion, the accompanying consolidated and separate financial statements present fairly, in all material respects, the financial position of the Group and the Company, respectively, as at 31 December 2017 their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards (TFRSs).

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing (TSAs). My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements* section of my report. I am independent of the Group and the Company in accordance with the Code of Ethics for Professional Accountants issued by the Federation of Accounting Professions that is relevant to my audit of the consolidated and separate financial statements, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matters

Key audit matters are those matters that, in my professional judgment, were of most significance in my audit of the consolidated and separate financial statements of the current period. These matters were addressed in the context of my audit of the consolidated and separate financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

Valuation of inventories	
Refer to notes 3 (g) and 10 to the financial statements	
The key audit matter	How the matter was addressed in the audit
<p>The valuation of inventories was focused on because the estimation of net realisable value of inventories involves management's judgment relating to estimate quantity and valuation for deteriorated, damaged, obsolete and slow-moving and shrinkage inventories.</p>	<p>My audit procedures included the following:</p> <ul style="list-style-type: none"> • Understood the inventory control and management policy and the estimation of net realisable value of inventories. • Tested a sample of the aging of inventory and the reasonableness of assumptions used to set the percentage of deteriorated, damaged, obsolete, slow-moving and shrinkage inventories determined by management and compared that percentage with information for destruction and shrinkage inventories. • Tested a sample of selling prices post year-end and the estimated costs to make the sale with related documents including recalculation of net realisable value. • Considered the adequacy of the Group's disclosures in accordance with Thai Financial Reporting Standards.

Acquisition of business	
Refer to note 3 (a) and 4 to the financial statements	
The key audit matter	How the matter was addressed in the audit
<p>On 26 January 2017, the Group acquired 4 companies, which are engaging in food services business. During 2017, the Group had completed assessing the fair value of the net assets acquired resulting in the recording of goodwill of Baht 2,256 million and intangible assets - trademark and customer relationship in the consolidated statement of financial position as at 31 December 2017 of Baht 449 million and Baht 59 million, respectively.</p> <p>I considered this as the key audit matter because the accounting for the business combination is complex and the identification and fair value measurement of assets acquired and liabilities assumed requires significant judgment and the amount of this business combination is significant.</p>	<p>My audit procedures included the following:</p> <ul style="list-style-type: none"> • Read the sale and purchase agreement and analysis memorandum of business combination prepared by the Group to understand key terms and conditions. • Evaluated the qualifications and independence of the independent valuer of the Group. • Evaluated the assessment by the Group of the identification of all the assets acquired and liabilities assumed and consideration transferred. • Consulted the valuation specialist to evaluate appropriateness of the key assumptions and the financial methodologies. • Tested calculation. • Considered the adequacy of the Group's disclosures in accordance with Thai Financial Reporting Standards.

Impairment of goodwill and other intangible assets	
Refer to note 3 (k), 3 (m), 4, 15 and 16 to the financial statements	
The key audit matter	How the matter was addressed in the audit
<p>The Group has significant goodwill and other intangible assets with indefinite useful life which was mainly arising from a business acquisition.</p> <p>The management normally assesses the impairment from the estimated recoverable amount at the end of the period. The recoverable amount was based on its value in use, determined by discounting future cash flows to be generated from the continuing use of assets and related assumptions.</p> <p>The judgments of management required to be applied over assumptions and the inherent uncertainty involved in forecasting and discounting future cash flows. This area was focused on my audit accordingly.</p>	<p>My audit procedures included the following:</p> <ul style="list-style-type: none"> • Understood the process of the estimated recoverable amount to assess the impairment. • Considered the key assumptions in the estimated recoverable amount reports, which were approved by management, by comparing the actual operation results, industry trends and information derived from external and internal sources and consulted with valuation specialists relating to financial methodologies used by the Group and discount rate and performed sensitivity analysis around the key assumptions. • Considered the adequacy of the Group's disclosures in accordance with Thai Financial Reporting Standards.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated and separate financial statements and my auditor's report thereon.

My opinion on the consolidated and separate financial statements does not cover the other information and I will not express any form of assurance conclusion thereon.

In connection with my audit of the consolidated and separate financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report the fact. I have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated and Separate Financial Statements

Management is responsible for preparation and fair presentation of the consolidated and separate financial statements in accordance with TFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and separate financial statements, management is responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Company or to cease operations, or has no realistic alternative but to do so. Those charged with governance are responsible for overseeing the Group's and the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements

My objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

As part of an audit in accordance with TSAs, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the consolidated and separate financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Notes to the financial statements

These notes form an integral part of the financial statements.

The financial statements issued for Thai statutory and regulatory reporting purposes are prepared in the Thai language. These English language financial statements have been prepared from the Thai language statutory financial statements, and were approved and authorised for issue by the Board of Directors on 22 February 2018.

1 General information

CP ALL Public Company Limited, the “Company”, is incorporated in Thailand and has its registered office at 313 C.P. Tower, 24th Floor, Silom Road, Kwang Silom, Khet Bangrak, Bangkok 10500, Thailand.

The Company was listed on the Stock Exchange of Thailand on 14 October 2003.

The ultimate parent company of the Company and its subsidiaries (together referred to as the “Group”) during the financial year was Charoen Pokphand Group Company Limited which incorporated in Thailand.

The principal businesses of the Group are operating convenience stores, cash and carry, payment centers and the related supporting services.

The Company operates convenience stores under the “7-Eleven” trademark and franchises to other retailers in the territory of Thailand. The number of 7-Eleven convenience stores as at 31 December 2017 was 10,268 stores (2016: 9,542 stores).

Details of the Company’s subsidiaries as at 31 December 2017 and 2016 are given in note 12 to the financial statements.

2 Basis of preparation of the financial statements

(a) Statement of compliance

The financial statements are prepared in accordance with Thai Financial Reporting Standards (“TFRS”); guidelines promulgated by the Federation of Accounting Professions (“FAP”); and applicable rules and regulations of the Thai Securities and Exchange Commission.

The FAP has issued new and revised TFRS effective for annual accounting periods beginning on or after 1 January 2017. The initial application of these new and revised TFRS has resulted in changes in certain of the Group’s accounting policies. These changes have no material effect on the financial statements.

CP ALL Public Company Limited and its Subsidiaries

Notes to the financial statements

In addition to the above new and revised TFRS, the FAP has issued a number of other new and revised TFRS which are effective for annual financial periods beginning on or after 1 January 2018 and have not been adopted in the preparation of these financial statements. The Group has made a preliminary assessment of the potential initial impact on the consolidated and separate financial statements of these new and revised TFRS and expects that there will be no material impact on the financial statements in the period of initial application.

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis unless otherwise stated in these accounting policies.

(c) Functional and presentation currency

The financial statements are prepared and presented in Thai Baht, which is the Company's functional currency. All financial information has been rounded in the notes to the financial statements to the nearest million unless otherwise stated.

(d) Use of judgements and estimates

The preparation of financial statements in conformity with TFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Assumptions and estimation uncertainties

Information about assumption and estimation uncertainties that have a significant risk of resulting in material adjustments to the amounts recognised in the financial statements is included in the following notes to the financial statements:

Note 4	Acquisition of subsidiaries: fair value of the consideration transferred (including contingent consideration) and fair value of the assets acquired and liabilities assumed, measured on a provisional basis
Notes 14, 15 to 16	Impairment test: key assumptions underlying recoverable amounts
Note 22	Measurement of defined benefit obligations: key actuarial assumptions

Measurement of fair values

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values. This includes a valuation team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the Chief Financial Officer (CFO).

The valuation team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of TFRS, including the level in the fair value hierarchy in which the valuations should be classified.

CP ALL Public Company Limited and its Subsidiaries

Notes to the financial statements

Significant valuation issues are reported to the Group's Audit Committee.

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follow:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as selling prices) or indirectly (i.e. derived from prices).
- Level 3: unobservable inputs for the asset or liability.

If the inputs used to measure the fair value of an asset or liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in note 4 and 38 to the financial statements.

3 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

(a) Basis of consolidation

The consolidated financial statements relate to the Company and its subsidiaries (together referred to as the "Group").

Business combinations

The Group applies the acquisition method for all business combinations when control is transferred to the Group, as describe in subsidiaries section, other than those with entities under common control.

The Group controls an entity when it is exposed to, or has right to, variable return from its involvement with the entity and has the ability to affect those returns through its power over the entity. The acquisition date is the date on which control is transferred to the acquirer. Judgment is applied in determining the acquisition date and determining whether control is transferred from one party to another.

Goodwill is measured as the fair value of the consideration transferred including the recognised amount of any non-controlling interest in the acquiree, less the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed, all measured as of the acquisition date. Any gain on bargain purchase is recognised in profit or loss immediately.

Consideration transferred is measured as the fair values of the assets transferred, liabilities incurred by the Group to the previous equity holders of the acquiree, and equity interests issued by the Group. Consideration transferred also includes the fair value of any contingent consideration.

A contingent liability of the acquiree is assumed in a business combination only if such a liability represents a present obligation and arises from a past event, and its fair value can be measured reliably.

CP ALL Public Company Limited and its Subsidiaries

Notes to the financial statements

Transaction costs that the Group incurs in connection with a business combination, such as legal fees, and other professional and consulting fees are expensed as incurred.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date.

Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

Non-controlling interests

At the acquisition date, the Group measures any non-controlling interest at fair value or at its proportionate interest in the identifiable net assets of the acquiree.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions

Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interests and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income or expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

(b) Foreign currencies

Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currencies of Group entities at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated to the functional currency at the exchange rates at the reporting date. Foreign exchange differences arising on translation are recognised in profit or loss.

Non-monetary assets and liabilities measured at cost in foreign currencies are translated to the functional currency at the exchange rates at the dates of the transactions.

CP ALL Public Company Limited and its Subsidiaries

Notes to the financial statements

Foreign entities

The assets and liabilities of foreign entities are translated to Thai Baht at the exchange rates at the reporting date.

Goodwill and fair value adjustments arising on the acquisition of foreign entities are stated at exchange rates ruling on the transaction dates.

The revenues and expenses of foreign entities are translated to Thai Baht at rates approximating the exchange rates ruling at the dates of the transactions.

Foreign exchange differences arising on translating are recognised in other comprehensive income and presented in the exchange differences on translating financial statement reserve in equity until disposal of the investments, except to extent that the translation difference is allocated to non-controlling interests.

When a foreign entity is disposed of in its entirety or partially such that control, significant influence or joint control is lost, the cumulative amount in the translation reserve related to that foreign entity is reclassified to profit or loss as part of the gain or loss on disposal. If the Group disposes of part of its interest in a subsidiary but retains control, then the relevant proportion of the cumulative amount is reattributed to non-controlling interests.

When the settlement of a monetary item receivable from or payable to a foreign entity is neither planned nor likely in the foreseeable future, foreign exchange gains and losses arising from such a monetary item are considered to form part of a net investment in a foreign entity and are recognised in other comprehensive income, and presented in the exchange differences on translating financial statement reserve in equity until disposal of the investment.

(c) *Derivative financial instruments*

Derivative financial instruments are used to manage exposure to foreign exchange arising from operational, financing and investment activities. Derivative financial instruments are not used for trading purposes.

(d) *Hedging**Hedge of future foreign currency transactions*

Gains and losses from forward exchange contracts and currency swaps used to hedge anticipated future currency transactions are deferred until the forecasted transaction occurs. Where the hedged item is a recognised asset or liability, it is translated at the contracted forward rates.

Foreign currency assets and liabilities hedged by forward exchange contracts are translated to Thai Baht at the contracted forward exchange rates and the forward premium/discount is amortised as income/expense on a straight-line basis over the forward contract period.

(e) *Cash and cash equivalents*

Cash and cash equivalents in the statement of cash flows comprise cash balances, call deposits and highly liquid short-term investments. Bank overdrafts that are repayable on demand are a component of financing activities for the purpose of the statement of cash flows.

CP ALL Public Company Limited and its Subsidiaries

Notes to the financial statements

(f) Trade and other accounts receivable

Trade and other accounts receivable are stated at their invoice value less allowance for doubtful accounts.

The allowance for doubtful accounts is assessed primarily on analysis of payment histories and future expectations of customer payments. Bad debts are written off when incurred.

(g) Inventories

Inventories are measured at the lower of cost and net realisable value.

Cost is calculated using the weighted average cost principal and comprise all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition, less purchase discount as specified in the contractual agreements. In the case of manufactured finished goods and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs to complete and to make the sale.

An allowance for losses of the Group is made for deteriorated, damaged, obsolete and slow-moving inventories and is assessed on analysis of aging of inventory and estimation of shrinkage inventories.

(h) Investments

Investments in subsidiaries

Investments in subsidiaries in the separate financial statements of the Company are accounted for using the cost method.

Investments in other debt and equity securities

Debt securities that the Group has the positive intent and ability to hold to maturity are classified as held-to-maturity investments and stated at amortised cost less any impairment losses. The difference between the acquisition cost and redemption value of such debt securities is amortised using the effective interest rate method over the period to maturity.

Equity securities which are not marketable are stated at cost less any impairment losses.

Disposal of investments

On disposal of an investment, the difference between net disposal proceeds and the carrying amount together with the associated cumulative gain or loss that was reported in equity is recognised in profit or loss.

If the Group disposes of part of its holding of a particular investment, the deemed cost of the part sold is determined using the weighted average method applied to the carrying value of the total holding of the investment.

Notes to the financial statements

(i) ***Investment properties***

Investment properties are properties which are held to earn rental income, for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes.

Investment properties are measured at cost less accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the investment property. The cost of self-constructed investment property includes the cost of materials and direct labour, and other costs directly attributable to bringing the investment property to a working condition for its intended use.

(j) ***Property, plant and equipment***

Recognition and measurement

Owned assets of the Group

Property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located, and capitalised borrowing costs. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gains or losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognised in profit or loss.

Leased assets

Leases in terms of which the Group substantially assumes all the risk and rewards of ownership are classified as finance leases. Equipment acquired by way of finance lease is capitalised at the lower of its fair value and the present value of the minimum lease payments at the inception of the lease, less accumulated depreciation and accumulated impairment losses. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly to the profit or loss.

Subsequent costs

The cost of replacing a part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

CP ALL Public Company Limited and its Subsidiaries

Notes to the financial statements

Depreciation

Depreciation is calculated based on the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value.

Depreciation is charged to profit or loss on a straight line basis over the estimated useful lives of each component of an item of property, plant and equipment. The estimated useful lives are as follows:

Buildings and improvements	3 - 50 years
Leasehold improvements	over the lease period
Machinery and equipment	3 - 15 years
Furniture, fixtures and office equipment	2 - 10 years
Others	
- Electricity and water systems	5 - 20 years
- Vehicles	5 years
- Library book	5 years

No depreciation is provided on freehold land and assets under construction and installation.

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

(k) Intangible assets*Goodwill*

Goodwill that arises upon the acquisition of subsidiaries is included in intangible assets. The measurement of goodwill at initial recognition is described in note 3(a) to the financial statements. Subsequent to initial recognition, goodwill is measured at cost less accumulated impairment losses.

Other intangible assets

Other intangible assets that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortisation and accumulated impairment losses.

Other intangible assets that are acquired by the Group and have indefinite useful lives i.e. intellectual property, business license, etc. are measured at cost less accumulated impairment losses. They are not amortised but tested for impairment annually or more frequently if there is any impairment indicator. The assessment of the classification of intangible assets as indefinite is reviewed annually.

Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred.

Amortisation

Amortisation is calculated over the cost of the asset, or other amount substituted for cost, less its residual value.

CP ALL Public Company Limited and its Subsidiaries

Notes to the financial statements

Amortisation is recognised in profit or loss on a straight line basis over the estimated useful lives of intangible assets, other than goodwill, from the date that they are available for use, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. The estimated useful lives are as follows:

Computer software	2 - 10 years
Intellectual property and business license	indefinite useful lives
Customer base and other	7, 10 and 15 years

Amortisation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

(l) Leasehold rights

Leasehold rights, acquired by the Group, have finite useful lives and are measured at cost less accumulated amortisation and accumulated impairment losses.

Amortisation

Amortisation is recognised in the profit or loss. The Company amortises the cost of leasehold rights on a straight line basis over the periods of the lease agreements between 10 to 31 years.

(m) Impairment

The carrying amounts of the Group's assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated. For goodwill and intangible assets that have indefinite useful lives or are not yet available for use, the recoverable amount is estimated each year at the same time.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. The impairment loss is recognised in profit or loss.

Calculation of recoverable amount

The recoverable amount of held-to-maturity securities carried at amortised cost is calculated as the present value of the estimated future cash flows discounted at the original effective interest rate.

The recoverable amount of a non-financial asset is the greater of the asset's value in use and fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

Reversals of impairment

An impairment loss in respect of a financial asset is reversed if the subsequent increase in recoverable amount can be related objectively to an event occurring after the impairment loss was recognised in profit or loss. For financial assets carried at amortised cost, the reversal is recognised in profit or loss.

CP ALL Public Company Limited and its Subsidiaries

Notes to the financial statements

An impairment loss in respect of goodwill is not reversed. Impairment losses recognised in prior periods in respect of other non-financial assets are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(n) Interest-bearing liabilities

Interest-bearing liabilities are recognised as stated in the agreement.

(o) Trade and other accounts payable

Trade and other accounts payable are stated at cost.

(p) Employee benefits

Post-employment benefit - defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided.

Post-employment benefit - defined benefit plans

The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method.

Remeasurements of the net defined benefit liability, actuarial gain or loss are recognised immediately in other comprehensive income. The Group determines the interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in profit or loss. The Group recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Other long-term employee benefits

The Group's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognised in profit or loss in the period in which they arise.

CP ALL Public Company Limited and its Subsidiaries

Notes to the financial statements

Termination benefits

Termination benefits are expensed at the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognises costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the end of the reporting period, then they are discounted.

Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(q) Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as a finance cost.

(r) Subordinated perpetual debentures

Subordinated perpetual debentures which are payable upon dissolution are recognised as equity as the Company has the sole right and discretion to early redemption as stipulated in terms and conditions of debentures, and the interest and cumulative interest payment are unconditionally deferred without time and number limitation and payable at the Company's discretion. Accordingly, any interest payments are recognised similar as dividends and directly in equity when payment obligation arises. Interest payments are presented in the statement of cash flows at the same way as dividends paid to ordinary shareholders.

(s) Revenues

Revenue excludes value added taxes or other sales taxes and is arrived at after deduction of trade discounts and volume rebates.

Sales of goods and services rendered

Revenue from the sale of goods is recognised in profit or loss when the significant risks and rewards of ownership have been transferred to the buyer. The Group will not recognise revenue if there is continuing control or management involvement with the goods sold or there are significant uncertainties regarding the measurement of consideration due and associated costs, or the probable return of goods. Service income is recognised as services are provided.

Initial fees, royalties and exclusivity fees

The Company recognises the initial fee obtained under the Management Agreements of the 7-Eleven convenience stores upon completion of the required services for the franchisees.

The Company recognises the royalty fee arising from the license for operating its 7-Eleven convenience stores over the period of the Management Agreements.

CP ALL Public Company Limited and its Subsidiaries

Notes to the financial statements

The Company has agreements with the merchandise suppliers to purchase their products to distribute in the 7-Eleven convenience stores. Under the terms of the agreements, the Company is entitled to charge exclusivity fees for the goods as specified in the agreements. In case of violation or cancellation of the agreements by the Company without reasonable cause, the suppliers have rights to a refund of such exclusivity fees according to the valuation of remaining period. But in case of cancellation of the agreements by the merchandise suppliers, such exclusivity fees are non-refundable. The Company recognises the exclusivity fees as income over the periods of agreements.

Customer loyalty programmes

The Group has customer loyalty programmes whereby customers are awarded credits (Points) entitling customers to the right to purchase products from the Group at a discount or qualify for a free gift. The fair value of the consideration received or receivable in respect of the initial sale is allocated between the Points and the other components of the sale. The amount allocated to the Points is estimated by reference to the fair value of the right to purchase products at a discount or fair value of the free gift. The fair value is estimated based on the amount of the discount adjusted to take into account the expected forfeiture rate. Such amount is deferred and revenue is recognised only when the Points are redeemed and the Group has fulfilled its obligations to supply the products. The amount of revenue recognised in those circumstances is based on the number of Points that have been redeemed in exchange for discounted products or gift, relative to the total number of Points that is expected to be redeemed. Deferred revenue is also released to profit or loss when it is no longer considered probable that the Points will be redeemed.

Other income

Other operating income and interest income are recognised in profit or loss on an accrual basis. Dividend income is recognised in profit or loss on the date the Group's right to receive payments is established, which in the case of quoted securities is usually the ex-dividend date.

(t) Finance costs

Interest expenses and similar costs are charged to profit or loss for the period in which they are incurred, except to the extent that they are capitalised as being directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to be prepared for its intended use or sale.

(u) Operating leases

Payments made under operating leases are recognised in profit or loss on a straight line basis over the term of the lease. Lease incentives received are recognised in profit or loss as an integral part of the total lease expense, over the term of the lease.

Contingent lease payments are accounted for by revising the minimum lease payments over the remaining term of the lease when the lease adjustment is confirmed.

Determining whether an arrangement contains a lease

At inception of an arrangement, the Group determines whether such an arrangement is or contains a lease. A specific asset is the subject of a lease if fulfilment of the arrangement is dependent on the use of that specified asset. An arrangement conveys the right to use the asset if the arrangement conveys to the Group the right to control the use of the underlying asset.

CP ALL Public Company Limited and its Subsidiaries

Notes to the financial statements

At inception or upon reassessment of the arrangement, the Group separates payments and other consideration required by such an arrangement into those for the lease and those for other elements on the basis of their relative fair values. If the Group concludes for a finance lease that it is impracticable to separate the payments reliably, an asset and a liability are recognised at an amount equal to the fair value of the underlying asset. Subsequently the liability is reduced as payments are made and an imputed finance charge on the liability is recognised using the Group's incremental borrowing rate.

(v) **Income tax**

Income tax expense for the year comprises current and deferred tax. Current and deferred tax are recognised in profit or loss except to the extent that they relate to a business combination, or items recognised directly in equity or in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the following temporary differences: the initial recognition of goodwill; the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss; and differences relating to investments in subsidiaries to the extent that it is probable that they will not reverse in the foreseeable future.

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

In determining the amount of current and deferred tax, the Group takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. The Group believes that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretations of tax law and prior experience. This assessment relies on estimates and assumptions and may involve a series of judgements about future events. New information may become available that causes the Group to change its judgement regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the period that such a determination is made.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax assets and liabilities, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax assets and liabilities on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realised.

CP ALL Public Company Limited and its Subsidiaries

Notes to the financial statements

(w) Earnings per share

The Group presents basic earnings per share (“EPS”) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss for the year attributable to ordinary shareholders of the Company less cumulative interest for the year on subordinated perpetual debentures whether it has been accrued or not by the weighted average number of ordinary shares outstanding during the year.

(x) Segment reporting

Segment results that are reported to the chairman of the executive committee (the chief operating decision maker) include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

4 Business combination by acquisition of shares

At the Board of Directors’ meeting of a local subsidiary (Siam Makro Public Company Limited (“Siam Makro”)) held on 8 August 2016, the subsidiary’s Board of Directors approved Siam Food Services Limited (“SFS”), a wholly-owned subsidiary of Siam Makro to enter into a sale and purchase agreement dated 31 October 2016 with non-related persons of Siam Makro (the “sellers”) for an acquisition of ordinary shares at 80% shareholding each of 4 companies, which are engaging in food services business, namely Indoguna (Singapore) Pte Ltd (a company incorporated in Singapore), Indoguna Dubai L.L.C (a company incorporated in the United Arab Emirates), Just Meat Company Limited and Indoguna Lordly Company Limited (formerly “Lordly Company Limited”) (both companies incorporated in Hong Kong Special Administrative Region of the People’s Republic of China), with a cash payment amounting to SGD 110.6 million, which is equivalent to Baht 2,744 million (exchange rate of Baht 24.81: SGD 1). SFS has accomplished the terms according to the sale and purchase agreement and the share transfer has been completed on 26 January 2017 (“the acquisition date”). Conditionally, within 90 days from the acquisition date, SFS can propose the adjusted acquisition value (“the additional acquisition value”) in accordance with the terms of the sale and purchase agreement. On 27 June 2017, SFS and the sellers agreed to adjust value of additional acquisition value amounting to Baht 101 million; and the payment was completed on 17 July 2017. In addition, SFS still have an obligation to make a contingent consideration in accordance with EBITDA as stipulated in the agreement.

On 26 January 2017 (“the acquisition date”), SFS has control over the 4 subsidiaries, details are as follows:

The Group has applied Thai Financing Reporting Standards ("TFRS") No. 3 (revised 2016) *Business Combinations* to recognise the business combination transactions. The following summarises the major classes of consideration transferred, and the recognised amounts of identifiable assets acquired and liabilities assumed.

Consideration transferred and transferable

(in million Baht)

Cash paid	2,845
Contingent consideration as stipulated in the agreement	232
Total	3,077

Contingent consideration

As stipulated in the agreement, SFS agreed to make an additional contingent consideration to the seller when the seller achieves targeted EBITDA.

SFS recorded contingent consideration determined by the best estimate, amounting to Baht 232 million (fair value at the acquisition date), based on discount rates at 2.06% per annum in 2018 and 2.12% per annum in 2019.

The following tables show the valuation technique and the key unobservable inputs used in the determination of fair value of the contingent consideration.

Valuation technique	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurement
The fair value is determined considering the expected payment, discounted to present value using a risk-adjusted discount rate. The expected payment is determined by considering the possible scenarios of conditions as stipulate in the agreement, the amount to be paid under each scenario, and the probability of each scenario.	<ul style="list-style-type: none"> Risk-adjusted discount rate (at 2.06% per annum and 2.12% per annum) Forecast EBITDA margin 	<ul style="list-style-type: none"> The estimated fair value would increase if the risk-adjusted discount rate was lower. The estimated fair value will be decreased if the EBITDA will not achieve in accordance with conditions stipulated in the agreement.

CP ALL Public Company Limited and its Subsidiaries

Notes to the financial statements

For the fair value of contingent consideration, changing one or more of the significant unobservable inputs used to reasonably possible alternative assumptions would have the effects. These effects have been calculated by recalibrating the values from the valuation technique using alternative estimates of unobservable inputs that might reasonably have been considered by a market participant to price the contingent consideration at the end of the reporting date. Any interrelationship between the unobservable inputs is not considered to have a significant impact within the range of reasonably possible alternative assumptions.

Sensitivity analysis

For the fair values of contingent consideration, reasonably possible changes at 31 December 2017 to one of the significant unobservable inputs, holding other inputs constant, the significant unobservable inputs that would have effects to fair values of contingent consideration and profit or loss is that EBITDA in 2018 is not achieved conditions as stipulated in the agreement, it would have effect to increase in profit of the consolidated financial statement for the year ended 31 December 2017 amounting to Baht 232 million.

During the year 2017 the Group engaged an independent appraiser to appraise the fair value of identifiable assets acquired and liabilities assumed, and allocation of acquisition-date fair value at the acquisition date. The independent appraiser completed the process of appraising the fair value on 27 December 2017. The principle factors that contributed to goodwill are the synergy benefits from the exchange of knowledge and skills among personnel, which increase the operating efficiency of the Group, and product development. Moreover, centralisation will create economies of scale, which in turn generates cost efficiency, especially in distribution centers. Goodwill from the business acquisitions will not qualify for any tax deduction.

For the preparation of the consolidated financial statements for the year ended 31 December 2017, the Group has considered the fair values of the identifiable assets acquired and liabilities assumed from the business acquisitions and recorded the difference between the purchasing price and values of the assets and liabilities in the account "Goodwill" amounting to Baht 2,256 million by considering the information from the report of the independent appraiser dated 27 December 2017 and other relevant information obtained within one year after the acquisition date. Therefore, the consolidated statement of financial position as at 31 December 2017 and the consolidated statements of income, comprehensive income, changes in equity and cash flows for the year then ended have been restated accordingly.

The trade receivables comprise gross contractual amounts due of Baht 555 million, of which Baht 2 million was expected to be uncollectible at the acquisition date.

Expenses related to business acquisitions

The Group had expenses related to business acquisitions, which are principally related to legal and due diligence fees, totaling Baht 65 million. The expenses were recorded in the administrative expenses account. The Group recorded a part of the expenses amounting to Baht 17 million in the consolidated statement of income for the year ended 31 December 2016. The remaining expenses amounting to Baht 48 million were recorded in the consolidated statement of income for the year period ended 31 December 2017.

Operations of 4 new subsidiaries after acquisition date

In the preparation of the consolidated statement of income for the year ended 31 December 2017, the Group included the operation results of 4 new subsidiaries for the period from 26 January 2017 to 31 December 2017. Significant details are as follows:

	For the period from 26 January 2017 to 31 December 2017 <i>(in million Baht)</i>
Revenue from sale of goods	2,455
Profit for the period attributable to equity holders of the Company	51

If the acquisition had occurred on 1 January 2017, management estimates that consolidated revenue from sale of goods and rendering of services of the Group and consolidated profit attributable to equity holders of the Company for the year ended 31 December 2017 would have no materially increased.

Most of the Goodwill arose from the Company's purchase of shares of Siam Makro Public Company Limited both directly and indirectly.

During the year 2017, Goodwill arose from the subsidiary's purchase of shares at 80% shareholding each of 4 companies, namely Indoguna (Singapore) Pte Ltd, Indoguna Dubai L.L.C, Just Meat Company Limited and Indoguna Lordly Company Limited (formerly "Lordly Company Limited") (See note 4 to the financial statements).

Impairment testing for carrying amount of goodwill and other intangible assets with indefinite useful life

The recoverable amount was based on its value in use, determined by discounting future cash flows to be generated from the continuing use of assets.

CP ALL Public Company Limited and its Subsidiaries

Notes to the financial statements

The values assigned to the key assumptions represented management's assessment of future trends in the relevant industries and were based on historical data from external and internal sources. The key assumptions used in the estimation of the recoverable amount were as follows:

Discount rate

The discount rate was based on weighted average cost of capital, with average industry cost of debt, risk free rate of 10-year government bond, market risk premium and average industry beta.

Terminal value growth rate

Terminal value growth rate was determined based on average gross domestic product ("GDP") growth rate, inflation rate and growth rates of historical earnings before interest, income tax, depreciation and amortisation ("EBITDA") of Siam Makro Public Company Limited, and of the 4 new subsidiaries.

Budgeted EBITDA

Budgeted EBITDA was based on expectations of future outcomes taking into the past experience, adjusted for the anticipated revenue growth. Revenue growth was projected from past experience and estimated number of new stores, sale growth of new stores and sale growth of same stores of Siam Makro Public Company Limited. The 4 new subsidiaries would develop and maintain their customer satisfaction by rendering high quality products, new product development, and maintenance customer relationship.

Based on the impairment testing, the recoverable amount was estimated to be higher than its carrying amount and no impairment was required to these financial statements.

The Group operates defined benefit plans which have characteristics as follows:

Pension fund benefit

Certain local subsidiaries operate a pension scheme for employees who joined before the 1st of January 2003 and choose to retain the benefits of the original scheme. Employees, upon resignation or retirement after having completed 3 years of service, shall be entitled to receive cash payment equivalent to their prevailing salary multiplied by the number of years of service, but not exceeding the equivalent of 10 months of the final salary.

Severance benefit

Under Thai Labour Protection Act B.E 2541 (1998) and the Group's employment policy, all employees completing 120 days of service are entitled to severance pay on termination or retrenchment without cause or upon retirement age of 55 and 60. The severance pay will be at the rate according to number of years of service as stipulated in the Labor Law which is currently at a maximum rate of 300 days of the final salary.

Additional benefit related to provident fund

A local subsidiary operates an employee benefit scheme under which employees who are members of the Company's provident fund, being a defined contribution plan, for at least 9 years are entitled to receive additional contribution from the subsidiary on their resignation or retirement from employment. Employees, who are a member of the provident fund for at least 9 years, shall be entitled to receive an additional 50% of the contributions made by the subsidiary on their behalf.

The defined benefit plans expose the Group to actuarial risks, such as interest rate risk, future salary growth risk and turnover rate risk.

Notes to the financial statements

Share premium

Section 51 of the Public Limited Company Act B.E. 2535 requires companies to set aside share subscription monies received in excess of the par value of the shares issued to a reserve account (“share premium”). Share premium is not available for dividend distribution.

25 Reserves

Reserves comprise:

Appropriations of profit and/or retained earnings

Legal reserve

Section 116 of the Public Limited Company Act B.E. 2535 requires that a public company shall allocate not less than 5% of its annual net profit, less any accumulated losses brought forward, to a reserve account (“legal reserve”), until this account reaches an amount not less than 10% of the registered authorised capital. The legal reserve is not available for dividend distribution.

Legal reserve as at 31 December 2017 and 2016 was higher than 10% of the registered authorised capital.

Other components of equity

Exchange differences on translating financial statement

The exchange differences on translating financial statement recognised in equity relate to foreign exchange differences arising from translation of the financial statements of foreign entities to Thai Baht.

Differences on acquisition of non-controlling interests

Differences on acquisition of non-controlling interests recognised in equity relate to difference between the amounts by which the non-controlling interests are adjusted and the fair value of the consideration paid.

26 Subordinated perpetual debentures

On 30 November 2016 and 22 August 2017 the Company issued unsecured, unconvertible and subordinated perpetual debentures in registered name form (“Debentures”) of Baht 10,000 million (debentures no. 1/2016) and Baht 10,000 million (debentures no. 1/2017), respectively, which are payable upon dissolution of the Company or upon the exercise of the Company’s early redemption right per condition as stipulated in the terms and conditions of debentures. These debentures bear interest which is calculated based on 5-year government bond yield adjusted with initial credit spread and coupon rate as stipulated in the terms and conditions of the debentures and is paid on a semi-annual basis. In this regard, the Company has the sole right to unconditionally defer interest and cumulative interest payments without time and number limitation based on the Company’s discretion.

CP ALL Public Company Limited and its Subsidiaries

Notes to the financial statements

If the Company defers interest and cumulative interest payment, the Company shall not perform as follows:

- (a) declare or pay any dividend; and
- (b) pay any interest or distribute any assets to any holder of Parity Securities or Junior Securities; and
- (c) redeem, reduce, cancel, acquire, or buy-back any securities issued by the Company which rank pari passu or junior to these debentures.

These Debentures of totalling Baht 19,909 million, net of issuance cost of Baht 91 million, are recognised as a part of equity in the consolidated and separate financial statements for the year ended 31 December 2017 (consisted of debentures no. 1/2016 of Baht 9,953 million, net of issuance cost of Baht 47 million and debentures no. 1/2017 of Baht 9,956 million, net of issuance cost of Baht 44 million). Debentures no. 1/2016 of Baht 9,953 million, net of issuance cost of Baht 47 million, were recognised as a part of equity in the consolidated and separate financial statements for the year ended 31 December 2016.

As at 31 December 2017, the company has not deferred any interest payments to the subordinated perpetual debenture holders. Cumulative interest for the year ended 31 December 2017 which the debenture holders have the right to receive if the interest payment was announced amounting to Baht 681 million (2016: Baht 44 million). During the year of 2017, the Company paid interest expenses on subordinated perpetual debentures to the holders of Baht 500 million (2016: nil).

27 Segment information

The Group has 3 reportable segments which are the Group's strategic divisions. The strategic divisions offer different products and services, and are managed separately because they require different technology and marketing strategies. For each of the strategic divisions, the chief operating decision maker ("CODM") reviews internal management reports on at least a quarterly basis. The following summary describes the operations in each of the Group's reportable segments.

- Segment 1: Convenience stores
- Segment 2: Cash and carry
- Segment 3: Other

Other operations include bill payment services, frozen food plant and bakery, and distributor of retailing equipment and educational institutions. None of these segments meets the quantitative thresholds for determining reportable segments in 2017 and 2016.

The Group is managed and operates principally (more than 98%) in Thailand. There are no material revenues derived from, or assets located in, foreign countries.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit before income tax expense, as included in the internal management reports that are reviewed by the Group's CODM. Segment profit before income tax expense is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

Capital management

The objectives of the Company's capital management are to safeguard the Company's ability to continue as a going concern in order to provide returns to the Company's shareholders and benefits to other stakeholders. The management sets strategies to support the Company's operations for more efficiency, and better performances and stronger financial status, including dividend and capital management policies to maintain the optimal capital structure and cost of capital.

Interest rate risk

Interest rate risk is the risk that future movements in market interest rates will affect the results of the Group's operations and its cash flows. The Group's exposure to change in interest rate relates primarily to interest-earning financial assets and interest-bearing financial liabilities. Interest rate risk is managed on an ongoing basis with the primary objective of limiting the extent to which net interest expense could be affected by an adverse movement in interest rates. The Group manages the interest rate risk of financial assets and financial liabilities by considering fixed and floating rates depend on the market situation.

Notes to the financial statements

Foreign currency risk

The Group is exposed to foreign currency risk relating to borrowings from financial institutions, purchases and sales of goods which are denominated in foreign currencies. The Group primarily utilises forward exchange contracts with maturities of less than one year to hedge such financial assets and liabilities denominated in foreign currencies. The forward exchange contracts entered into at the reporting date also relate to anticipated purchases and sales of goods, denominated in foreign currencies, for the subsequent period.

At 31 December 2017 and 2016 the Group was exposed to foreign currency risk in respect of financial assets and liabilities denominated in the following currencies:

Credit risk

Credit risk is the failure of a customer or counterparty to settle its financial and contractual obligations to the Group as and when they fall due.

Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. Credit evaluations are performed on all customers requiring credit over a certain amount. At the reporting date there were no significant concentrations of credit risk. The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the statements of financial position. However, due to the large number of parties comprising the Group's customer base, management does not anticipate material losses from its debt collection.

Liquidity risk

The Group monitors its liquidity risk and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and to mitigate the effects of fluctuations in cash flows.

Carrying amount and fair values

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

Significant agreements

As at 31 December 2017 the Group had the following significant agreements:

- (a) The Company has an area license agreement with 7-Eleven, Inc., which was incorporated in the United States of America, to acquire a license to use the systems and trademarks of 7-Eleven, Inc. in connection with the operations of 7-Eleven convenience stores or franchising of such operations to other retailers in Thailand. The Company has also obtained certain services from 7-Eleven, Inc. in relation to training and technical assistance. In consideration thereof, the Company is committed to pay royalties to 7-Eleven, Inc. calculated as percentages of total sales of the 7-Eleven convenience stores that are operating in Thailand.
- (b) The Company has management agreements with local companies for their management of the Company-owned 7-Eleven convenience stores. Under the terms of the agreements, the Company is committed to pay management fees to those licensees calculated as percentages of gross operating profits of these convenience stores. The Company is entitled to receive the initial payments and royalties from those licensees in connection with the licenses granted for operating these 7-Eleven convenience stores. These initial payments and royalties are not refundable to the licensees in any case. The initial payments include deposits to guarantee the licensees' compliance with the agreements and any damage and/or liability that might be caused by the licensees. In consideration thereof, the Company pays interest on the deposits calculated at the time deposit rates announced by a local financial institution. These deposits will be refunded to the licensees upon termination of the agreements.
- (c) The Company has sub-area license agreements for operating 7-Eleven convenience stores and franchising such operations to other retailers ("licensees"). Under the terms of the agreements, the Company will provide certain technical assistance and related services to the sub-area licensees. In consideration thereof, the Company is entitled to receive royalties from the sub-area licensees as percentages of total sales of the 7-Eleven convenience stores operating in the licensed areas.
- (d) A local subsidiary, Gosoft (Thailand) Co., Ltd., has service agreements with local companies ("the parties"), whereby the latter parties provide the installation and development of systems as stipulated in the agreements. Under the terms of the agreements, the subsidiary is committed to pay a service fee to the parties as stipulated in the agreements. These agreements are effective for periods over 4 to 6 months, and will expire on various dates until December 2018.
- (e) A local subsidiary, Counter Service Co., Ltd., has service agreements with government entities and state enterprises (e.g., utilities, telephone expenses, etc.), and other local companies (e.g., hire purchase, life insurance premium, etc.) ("the parties"). Under the terms of the agreements, the subsidiary is committed to operate payment centers to collect customer payments on behalf of the parties then remits funds to the parties as the agreed procedures. The subsidiary can collect service income from customers or local companies as stipulated in the agreements. These agreements are effective for periods over 1 to 5 years, and will expire on various dates up to November 2021. If either of the parties has an intention to terminate the agreement, a written notification must be made to the other party at least the number of day stipulated in the agreement before the expiry date of the agreement.

CP ALL Public Company Limited and its Subsidiaries

Notes to the financial statements

- (f) A local subsidiary, Counter Service Co., Ltd., has service agreements with certain individuals and local companies (“the parties”), whereby the latter parties are appointed as agents of the subsidiary for receipts of customers’ bills as specified in the agreements. Under the terms of the agreements, the subsidiary is committed to pay a service fee to the parties as stipulated in the agreements. These agreements are effective for periods over 1 to 5 years, and will expire on various dates up to June 2021. If either of the parties has no intention to renew the agreement, a written notification must be made to the other party at least 30 days before the expiry date of the agreement.
- (g) A local subsidiary, CP Retailink Co., Ltd., has repair and maintenance management service agreements with local companies (“the parties”), whereby the latter parties agree to install and repair and maintenance of computer equipment and software, utility systems, electric appliances and other equipment used for operations in retail stores. Under the terms of the agreements, the subsidiary is committed to pay a service fee to the parties as stipulated in the agreements. These agreements are for a period of 1 year and are renewable for additional periods of 1 year. If either of the parties has no intention to renew the agreement, a written notification must be made to the other party at least 30 days before the expiry date of the agreement.

41 Contingent liability

As at 31 December 2017 the Company was contingently liable to a legal case with a fund (“the plaintiff”), in which the Company was a defendant in a lawsuit involving the compliance with Tender Offer Rule. The court of first instance rendered a judgement on 24 February 2015 and ruled the Company to pay the claimed damages amounting to Baht 104.7 million plus interest at the rate of 7.5% per annum starting from 2 August 2013 up to when the settlement of claimed damages will be completed. Consequently on 19 June 2015 the Company appealed the court’s judgement; and on 16 November 2015 the plaintiff filed against an appeal to the court.

Subsequently, on 13 July 2016 the civil court read the appeal court’s judgment on the legal case. The appeal court dismissed the claim citing to the Company did not commit a wrongful act against the plaintiff. Therefore, the Company does not have a liability to pay the claimed damages in accordance to the first instance court’s judgment. Accordingly, no provision has been made in the financial statements for the year ended 31 December 2017.

On 14 November 2016, the Company and the plaintiff filed their own petitions with the Supreme Court. The court accepted the plaintiff’s petition on 21 April 2017 and the Company’s petition on 26 May 2017. As at the date in this report, the legal case was still pending with the Supreme Court.
