The Chairman provided opportunities for shareholders to inquire about the above Company's operations.

A shareholder inquired whether the operating results of Panyapiwat Institute of Management (“Institute”) were consolidated in the Company’s financial statements and whether the Institute recorded profits.

The Chairman requested the Company Secretary to respond. The Company Secretary informed that the Institute posted profits in 2014 which were consolidated in the Company’s 2014 financial statements.

A shareholder asked whether store expansion in 2015 – 2016 included pharmacy stores and the prospects of this business.

The Chairman delegated Mr. Tanin Buranamanit, Director, Member of the Executive Committee, Managing Director and Chief Executive Officer, to answer. Mr. Tanin Buranamanit explained that eXta stores or pharmacy stores as inquired by the shareholder sells health and beauty products to improve quality of life. The Company has considered opening stores with and without pharmacists to offer greater services for customers. Growth of products in this category is expected to increase every year.

A shareholder inquired as follows:

1. Net profit of the financial statements is on downward trend. What is the reason behind the profit decline? How will this be solved? What should be the appropriate profit margin?

The Chairman requested Mr. Kriengchai Boonpoapichart to answer. Mr. Kriengchai Boonpoapichart explained that net profit margin declined as a result of the increase in finance costs after the acquisition of Siam Makro Plc. (“Makro”). We believe that in the future, when the business of both Makro and 7-Eleven stores expand further and grow more than finance costs that are stable or decrease, profit margin will improve in the future.

2. The acquisition of Makro has brought about interest expense. Please compare the dividend received from Makro to the interest expense that the Company has to pay each year. Does the difference result in profit or loss?

Mr. Kriengchai Boonpoapichart explained that this still shows a loss as the dividend received from Makro is slightly less than finance costs. However, we believe that in the near future, the operating results and dividend of Makro will increase to sufficiently cover the said difference.

3. Last year, in the Shareholders Meeting, the Company’s director informed that the Company will reduce shareholding in Makro. Please update on the progress.

The Chairman replied that at present, the Company has not yet sold shares of Makro. However, it is still trying to reduce its shareholding in Makro to lower the Company’s interest expense.

4. Comparing the financial statements of 2012 and 2013, the Company’s liabilities increased over Baht 200,000 million due to the acquisition of Makro. Why has liabilities increased further comparing the financial statements of 2013 and 2014?

Mr. Kriengchai Boonpoapichart explained that part of the total liabilities comes from trade accounts payable. In line with the growth in sales, trade accounts payable have risen, which is normal for businesses.

5. The Company’s net debt to equity ratio is 4.7 and has a declining trend. As a listed company in the Stock Exchange of Thailand, the Company should have other means of mobilizing funds without having interest expense burden such as issuing warrants, which is a form of indirect investment whereby people with money can invest and convert the warrants into shares later. This will also improve the liquidity of the Company’s shares in the stock market.

Mr. Kriengchai Boonpoapichart thanked the shareholder for the suggestion which was an alternative for managing the Company's finances and will be further taken into consideration by the Company.

A rights protection volunteer, a proxy of the Thai Investors Association, inquired as follows:

1. What is the Company's concept with regards to business expansion because it seems that it covers all areas. Please update on the progress of the investment in distribution centers.

The Chairman answered that many people might be wondering whether the Company was engaged in the dry cleaning business. This is not true. The Company only provides convenience to customers as a drop off/delivery center for customers to send their clothes for cleaning at dry cleaning stores. The Company is still in its original business of providing convenience to consumers. With regards to investment in distribution centers, as 7-Eleven stores are growing continuously, there is a need to have supporting distribution centers. The Company does not have a policy to build distribution centers in advance, but will plan the total number of stores in 3-4 years time and then invest in a new distribution center to support store expansion.

2. Please update on the progress after joining Thailand's Private Sector Collective Action Coalition Against Corruption (CAC).

The Chairman delegated the Meeting Secretary to explain as follows. After announcing its intention not to be involved in corruption, the Company appointed a Project Manager and Working Team to study the details. There was a test and evaluation of the Company's readiness to complete the Self-Evaluation Tool for Countering Bribery to see which areas the Company could fulfill and which areas needed improvement in order to meet the requirements. After everything is ready, the Company will apply for certification from the CAC.

As there was no further opinion or question from the shareholders, the Meeting, therefore; acknowledged the Company's operations for the year 2014 as reported above.

3. To consider and approve balance sheet and profit and loss accounts for the year ended December 31, 2014.
