It has legal reserve for amount of Baht 900 million or equal to 10% of the Company's registered capital, fully appropriated according to the Articles of Association of the Company, no more additional appropriate for legal reserve from net profit of the year 2015.

The Company has a policy to pay dividend to the shareholders at approximate 50% of net profit from the separate financial statements from operation after deduction of income tax and legal reserve in each year and from the consolidated financial statements in additional consideration.

However, the dividend payment policy may be changed if the board of directors considers the company's financial position, economic situation, the operating result, the ability to repay the principal and interest in accordance with the terms of long-term loan contract including future investment plans and agrees to propose the meeting of shareholders to consider other alternatives.

With reference to the resolution of the Board of Directors' Meeting no. 2/2016 held on February 29, 2016 when considering the company's financial position and operating result, the Board of Directors proposed the Shareholders' meeting to consider and approve the dividend payment to shareholders from the operating result during January 1, 2015 – December 31, 2015. Therefore, the income tax credit for this dividend is equal to the number of dividend multiply by 20/80.

The Chairman provided opportunities for the shareholders to inquire about the appropriation of profits and dividend payments and assigned the meeting secretary to answer as follows:

A shareholder inquired why the Company did not use retained earnings that the Company paid 30% corporate income tax to pay dividends to shareholders instead of net profit that paid 20% corporate income tax, which would allow shareholders to receive greater tax credit for dividends.

Another shareholder asked, "In the past 3 years, the Company paid dividends at approximately 70% of net profit from consolidated financial statement. This year, why has the dividend payout ratio declined to 59%? We hope that the Company's dividend payout ratio will be 70% in the following years and that retained earnings that the Company paid 30% corporate income tax will be used to pay the dividend."

The Meeting Secretary informed that the Meeting of the Board of Directors has already approved dividend payment from 2015 net profit at the rate of Baht 0.90 per share. Therefore, this cannot be changed. However, the shareholder's recommendation will be presented to the Meeting of the Board of Directors for consideration.

Mr. Padoong Techasarintr provided opportunities for shareholders to inquire about the report on the progress of elevating the Company's corporate governance and requested Mr. Umroong Sanphasitvong, Director, CG Committee and Member of Executive Committee to respond to the meeting, which can be summarized as follows:

One of shareholders admired the success of the Company and dedication of executives to become No.1 in the industry. However, the Company faced with governance issues resulting from 4 executives headed by Mr. Korsak Chairasmisak who were sentenced by the SEC, with or without intention leading to the following impacts:

1. impact to investors both local and foreign institutions. They have already sold CPALL shares resulting in stock price moving downward from Baht 50 to 45.
2. impact to cost of borrowing. Some financial institutions said they did not want to do business with CPALL which may impact to higher cost of fund and lower not profit
3. impact to Panyapiwat Institute of Management (PIM). CPALL executives had positions in PIM and PIM was the institute to create personnel to the country. If lacking of CG, how the students would be proud of the institute.

He would like executives to realize CG as follows:

4 executives did not show any material responsibilities; thus, he would like them to take a break in the CPALL executive position for 1 year and come back after that or positioning only as advisors. That deemed good and ample. To be responsible for only paying charges or set up CG Committee was not sufficient.

Mr. Umroong Sanphasitvong notified that this incident was a painful lesson that no one expected to be happened. However, we deemed as a valuable lesson and aim to look into the future with elevating CG up to international standard, preventing this similar incident not to be happened or we considered just to remember the past incident. Additionally, providing opportunity and forgiveness were as virtue, ethics and good culture. I would like shareholders to give them a chance and forgive them to further operate the business.

One of shareholders said some institutions e.g. IOD disagreed and he concerned that CPALL was not capable of bond issuance.

Mr. Hangchai Akkawatkul, advisor of Thai Investor Association, called for the record of shareholders' requests and stood for code of ethics. He called for CG units of the Company that any action must be responsible by doers. Currently, the SET fought for anti-corruption and it was not easy of the SEC to complain 4 executives if not full set of evidence and no intention. He asked the CG units to do the right thing otherwise; how the students at PIM would follow and would like the Board considered executives show the spirit. In addition, he asked the representative of the SET and IOD to act solid.

One of shareholders said 4 executives should consider themselves and make their own decision. To only pay fines was not sufficient. They would definitely win the votes if there were appointment of directors.

One of shareholders said shareholders had various needs. He bought shares of a good CG company but prices move downward. He considered that CPALL had shown strong performance and good return to shareholders. However, the Company had abundant obligations and shareholders should compromise by provide warning.

One of shareholders said no one would like this incident happen and CPALL had still abundant obligations. He was confident that CPALL was able to pass this critical situation and education program has been done for good.

Mr. Umroong Sanphasitvong notified that good concernedness of all shareholders were the same as of major shareholder. Any decision making were done to the best interest of shareholders. Due to the fact that the error of those executives was not a corruption case and CP culture never provide forgiveness to such thing. Similarly, the SEC option of compoundable offence must not be the error on corruption and not having far-reaching effect. The accused accepted the fines and the case would be closed. They were still qualified as directors of the listed company.

In addition, the Company focused regularly on corporate social responsibility. Preceding, the Board and executives listened to the demand of all related parties and brought opinions for considerations of elevating CG of the Company.

After that, Mr. Umroong Sanphasitvong read the open letter of Mr. Dhanin Chearavanont, Chairman of the Board, who cannot attend the meeting today due to his tight schedule.

Dear Shareholders,

I am writing to you in relation to an issue that has caused great concern resulting from some of our executives having traded shares based on inside information at the time of CPALL's acquisition of Siam Makro in 2013 and the SEC announced that it had closed an investigation resulting in fines being against our executives. I would like to thank you investors, representatives of investors and Association voicing the concern that the Company and myself as the Chairman of the Board of CPALL and CP group realize the importance of CG improvement up to international standard.

I would like to ask for this opportunity to provide opinion as Chairman of the Board I believe executives involved this error of judgment without intention and based on insufficient knowledge of the rules, we concluded that they were not malicious in their actions. They feel regretful exceedingly. Upon my reason agreed with the Board, we believe and rely on their duties due to his complete qualifications specified by the SEC after paying fines. Over the 52 years that I have been helping the Group including CPALL with such executives as colleague. We rely on virtue, code of ethics as a principle base and have always done the right thing for our customers, suppliers and business partners, and to look after the people who work alongside us as well as benefits of all shareholders. The principle that I adhere to is to protect and provide opportunity for a good and merit executive and employee. And I have always believed in the power of forgiveness when they have done an error unintentionally. However, they have to learn the lessons and must not re-do such error.

In this case, I am writing to all of you for the chance to re-gain your trust and to continue in our business.

From this lesson, I realize that our current CG system needs to be improved to respond to the expectation of capital market both domestically and internationally as well as social expectation towards the Company and the group needs to learn, admit and adapt along with international standard and concurrently keep with good corporate culture. I as a Chairman of the Board drive for all ways to adapt our corporate culture up to international standard of good corporate governance.

I also realize the importance of measures that the Board of CPALL has notified and report the progress of CG enhancement. I would like to ask for the opportunity to report the material step of CP group to ensure our intention of CG improvement up to international standard and I will drive by myself.

Urgent measure is to set up Group CG Committee consisted of high qualification of various experts domestically and overseas, executives and independent directors as representatives of our listed companies. This Committee initially will govern risk factor of CG, execution of the Board and executives. Within 60 days, I will propose the Board's names, practice guidelines, scopes and procedures including selection of world-class advisor to improve and elevate the standard regularly.

Additionally, the group will educate the awareness, knowledge of CG and thorough understandings towards the Board and executives to prevent this similar incident,

make strict punishment and not to forgive this kind of error e.g. insider trading of information that has not been disclosed to the public, violate the disclosure rules.

At last, I would like to thank you all shareholders to honor and get confidence over the Company. Arisen problems act as essential lessons and I confirm that this lesson will be fixed seriously for our leading organization to gain trust and be accepted domestically and overseas. We will be an organization which can grow sustainably and go from strength-to-strength well into the future.

As there was no further question from the shareholders, the meeting of shareholders therefore had acknowledged the progress of CG enhancement as detail above.

10. To consider other business.

Mr. Padoong Techasarintr asked the shareholders whether they had any other questions and assigned the meeting secretary to answer as follows:

A shareholder would like to know the details of remuneration of 12 executives amounting Baht 332 million as prescribed on page 150 of annual report.

Another shareholder asked on the Company Financial Statement impact regarding risk factors of goodwill and other intangible assets record as prescribed on page 94 of annual report.

The meeting secretary notified that shareholders' queries must be described in detail and expected to waste time. Thus, notification would be done after the meeting.

As there was no further question from the shareholders, Mr. Padoong Techasarintr thanked the shareholders for joining the Meeting and for expressing their opinions including providing useful recommendations to the Company, which the Company will consider for further action, then he adjourned the Meeting.

During the Shareholders were considering the matter in each agenda, there were additional shareholders and proxies present at the Meeting up to the agenda 8 totaling 7,290,551,436 shares equal to 81.16% of paid up capital.

The Meeting adjourned at 4.40 p.m.
