Issue: Guarantee letter for the quality of food

Date: 26 June 2019

To: Export marketing team

From: Quality Assurance Department

In behalf of CPRAM we would like to give our customer the reliability that the products were produced from good materials. In receiving process these materials were inspected the quality follow the raw material specification before transferring to step of producing together with controlling process under the standard and company policy as the following

1. Before purchasing the materials, all suppliers must passed the assessment to ensure the quality and retain agreement of us throughout dealing.
2. CPRAM employees must obey and comply the quality policy for the safety follow the regulation.
3. For high risk materials that probably contain GMO, the commercial agreement must be clear the condition of acceptance. The suppliers must have the guaranteed result from the reliable department such as Department of Agricultural Extension (DOAE) to guarantee their products free from GMO. In addition, every traceability exercise the suppliers must complete the product inspection form for inspection future.

Please be informed accordingly and consider

Yours sincerely,

Miss Supansa Klinsrisuk
